Summer Reading Club

1 December 2017 - 31 January 2018

The Summer Reading Club wants to get children reading for the sheer love of it. The program is geared towards children aged 5 to 12 years and provides them with incentives to keep reading during the summer school holidays.

GAME ON is this summer’s reading theme. Young readers are encouraged to play, solve, participate and read in celebration of sports, games, technology and spirit.

Children can read whatever they want in whichever format they choose. Books, eBooks, audioBooks, magazines or graphic novels – the more you read, the more prizes you can score!

Register at our libraries or online from 1 December – 31 January, record your reading and enter the draw to win amazing prizes. There is one iPad to be won, book vouchers, stationery packs and much more.

Pick up a reading log to record your reading in the libraries or download online. When you have read 10 books, return your reading log to any of our libraries to claim your reward. Reading rewards are set at 10 books and 20 books, simply return your reading log to claim them. If you read more than 30 books you’ll go in the draw for the major prizes.

Slip on your detective hat and enter the library as a super sleuth! Follow the clues and decipher the riddles to unlock the secrets of our holiday scavenger hunt.

Want more Summer Reading Club fun? Join the official Australia-wide club to go into the draw for additional prizes. Access activities such as book raves, writing competitions and games.

FOR CHILDREN

1000 Books Before School

Research shows that children who are read to every day from an early age have extended vocabularies and increased reading readiness when they enter school.

We’re calling on local families to register their commitment to share 1000 books with their children from birth until they begin school. By reading just one book each evening, the 1000 book target can be achieved in less than three years and instil a lifelong love of books and learning in children.

How 1000 Books Before School works

› Register at any of our libraries to receive your first Reading Record and kit to get you started. A library membership is required to join the program.

› Mark, colour or place a sticker on your Reading Record each time you read together with your child.

› Each time you reach a milestone in your Reading Record, bring it in to your local library for a special reward. Milestones are set at 100, 250, 500, 750 and 1000 books.

› Every book your child completes, or actively listens to, counts – this includes stories read at storytime sessions, childcare, playgroup, kindergarten, as well as the same book read over and over again. You can read books from anywhere – not just library books.

The program finishes once your child reaches 1000 books, or starts school.

Panel: Writing about your life

Writers Alice Pung, Dmetri Kakmi and Lee Kofman explore the nature of creative non-fiction: what it is, their writing processes and the ethical dilemmas embedded within the genre, which lays claim to truth yet so frequently blurs the line between fact and fiction.

Alice Pung is an award-winning Melbourne writer whose non-fiction books include *Unpolished Gem*, *Her Father's Daughter*, and *On John Marsden*. Her first novel *Laurinda* won the 2016 Ethel Turner Prize at the New South Wales Premier’s Award and she is the editor of *Growing Up Asian in Australia* and *My First Lesson*.

Lee Kofman is the Israeli-Australian author of the memoir *The Dangerous Bride* (2014) and three fiction books. She co-edited an anthology of Australian female memoir, *Rebellious Daughters* (2016). Her short fiction, creative non-fiction and poetry have been widely published in Australia and overseas.

Simone Sharpe. A Capitol site of urban development and suburban transformation

The History Centre’s Simone Sharpe presents an historical examination of the changes in use of the former cable tram engine house site on the corner of Toorak Road and Chapel Street – from transport-related power generation, to commercial food production as the Capitol Bakeries, to retail and entertainment as the Fun Factory, then to a high-density residential zone.

Drawing on a range of sources including council records, newspapers, photographs and correspondence, she uses this site as a case study to illustrate the transformation of South Yarra from a suburb with pockets of working class industry to one now more associated with conspicuous consumption.
