[STONNINGTON.VIC.GOV.AU](#)

City of
STONNINGTON

Part 1 – Preliminary

A term used in this manual has the meaning given to it under the Stonnington Local Law 2018.

Part 2 – Administration of this Local Law

The form of a Notice to Comply is set out in Schedule 1.

Part 7 – Protection of Council Land

Clause 115 – Asset Protection Permits

Asset Protection Permit Bonds are determined by Council from time to time.

Where, in the opinion of an Authorised Officer, an existing driveway crossing, footpath, road, street tree, kerb or other part of Council's asset may be damaged, the person responsible for the building work must pay to Council a bond, or provide a bank guarantee or other security acceptable to Council.

The amount of the bond, bank guarantee or other security to be provided will be determined during the assessment of the application and will be proportionate to the likely cost of repairing any damage to Council assets. The amount (if a bond) or bank guarantee must be provided to Council before the permit is issued.

If, after issuing a permit, with or without the requirement of a bond, guarantee or other security, further information is received and an Authorised Officer is of the opinion that damage or further damage may occur, the person responsible must pay to Council a bond, bank guarantee or other security or further bond, bank guarantee or other security.

The security will be refunded after the final inspection of Council assets if there has not been any damage to Council's assets as a result of the building works.

If damage to Council's assets has occurred, the security will be retained by Council to offset the cost of repairing any damage.

Part 9 – Council Reserves

Restrictions

A person may consume Liquor in a Council Reserve:

- (a) during daylight hours
- (b) as part of a picnic, barbecue or otherwise in accordance with a Permit.

A person may consume liquor in a Council Reserve:

- (a) during an event that has been prescribed by Council (from time to time) as an event for which liquor can be consumed.

A list of Council Reserves are listed at Schedule 4.

Part 10 – Hoardings

Council prefers the use of creative graphics on temporary structures on, or within, public space and on, or within, private land in the municipality.

Applying creative graphic treatments on protective structures, hoardings and scaffolding at construction sites across the municipality increases:

- > creativity in our streetscapes
- > reduces the detriment to the amenity of the municipality as a result of hoardings and scaffolding.

Creative graphics include the following:

- > artworks
- > historical pictures
- > advertising of the proposed development on the land
- > other treatment other than plain hoarding.

The installation of creative graphics on hoardings is mandatory depending on certain circumstances such as the location, duration of installation and proximity to major transport corridors. They are required to minimise adverse visual impacts of work sites and hoardings, and to increase the presence of creativity in our streetscapes. It is mandatory to have a creative graphic for the following:

(a) Specific locations:

- (i) Toorak Road
- (ii) Malvern Road
- (iii) High Street
- (iv) Chapel Street.

(b) Duration:

any hoarding, temporary structure, scaffolding or other protective structure required to be erected for a period of 4 months or more.

In all other circumstances, if chain wire temporary fencing is to be used, it must be screened with an appropriate mesh that screens the temporary fence so that a person cannot see into the land.

Council requires hoardings, temporary structures, scaffolding or other protective structures to meet the following requirements.

Hoardings

Hoarding fences must be kept free of graffiti and bill posters, and the structural frame must be kept clean, tidy and in good condition, to the satisfaction of Council.

Graffiti and bill posters must be removed within 24 hours of being placed on hoarding fences and, where the surface has been damaged, the hoarding fence repaired and repainted. In the case of damage to graphics, damaged sections must be replaced. General wear and tear on hoarding fences and the hoarding structure will require periodic repair and/or repainting throughout the duration of it being erected.

Screening systems and graphics

Screening systems and/or graphics or images on hoardings and scaffolding must be fully and properly maintained for the full duration that a temporary structure is in place including keeping:

- (a) the screening mesh or fabric taut to minimise the adverse effects of wind on the structure and being visually pleasing
- (b) screening systems being maintained in good condition to maintain an acceptable and quality appearance in the streetscape.

Scaffolding – graphics and images (construction/ scaffolding wraps)

The whole scaffolding face, or a lesser area where specifically approved by Council, must display a coordinated and integrated graphic display that can include façade replication, community images, historical municipal images or public art to mitigate the adverse visual impacts on the public place and add visual interest and vibrancy in the streetscape. Council must give approval to a proposed artwork or graphic display.

Printing of graphic displays must use UV-stabilised or latex-based inks. The system of installation and attachment of graphic displays to temporary structures must consider the long-term durability, appearance and maintenance requirements to ensure that an acceptable quality appearance is provided and maintained.

Part 14 – Tree Protection

Significant Trees

In assessing an application for a Permit in relation to a Significant Tree an Authorised Officer must take into consideration the following where relevant:

- (a) the condition of the tree (health and structural condition)
- (b) whether the proposed action is to be undertaken for reasons of health or safety
- (c) whether the tree is causing significant property damage
- (d) the effect of the proposed action on the amenity of the neighbourhood
- (e) any other matter relevant to the circumstances of the application that is drawn to Council's attention or of which Council is aware.

Part 16 – Sanitation

Domestic and recycling waste collection

In addition to the requirements at clause 174 of the Local Law the owner and occupier of land to which a domestic waste collection service or a domestic recycling collection service must:

- (a) place or cause to be placed on the nature strip or footpath no more than the number of Approved Receptacles allocated to the land
- (b) ensure that the Approved Receptacle is placed on the nature strip or footpath no earlier than 3pm on the day prior to the day of the domestic waste or domestic recycling collection and no later than 4am on the day of after the domestic waste or domestic recycling collection
- (c) not place an Approved Receptacle so that it creates an obstruction or is a hazard to other footpath or road users
- (d) ensure that the Approved Receptacle does not cause a nuisance to adjoining premises
- (e) not remove an Approved Receptacle that has been supplied by Council from land to which it has been assigned by Council unless the person has the written consent of Council or an Authorised Officer
- (f) not place or allow to be placed any hot materials in an Approved Receptacle
- (g) not place or allow to be placed an Approved Receptacle on a road that causes damage to the Approved Receptacle

- (h) pay to Council the cost of repairing or replacing an Approved Receptacle in the event of an Approved Receptacle being damaged, destroyed, lost, stolen or missing (except where it is stolen and the theft has been reported promptly to Victoria Police and a statutory declaration to that effect is provided to Council).

Trade waste bins and hoppers

In addition to the requirements at clause 175 of the Local Law the owner, occupier or person in charge of land must not allow an approved receptacle to remain on a road:

- (a) the day after collection of the waste receptacle
- (b) before 3pm on the day before the waste collection, or
- (c) no later than 24 hours after collection if the waste collection occurs on a day when the business on the land is closed.

In addition to the requirements at clause 175 of the Local law the owner, occupier or person in charge of land must ensure a waste receptacle is:

- (a) kept in a clean and sanitary condition at all times
- (b) kept free of graffiti
- (c) maintained in a condition fit for its purpose
- (d) replaced if damaged
- (e) kept in a manner to ensure easy movement and not to damage Council assets, and
- (f) marked to clearly identify the owner of the waste receptacle.

Part 17 – Permits

The form of a Permit is set out in Schedule 2.

Part 19 – Infringement Penalty Amounts

The offences for which an infringement notice may be issued and the penalty amount is set out in Schedule 3.

Part 20 – Administration and Enforcement

Exemptions

Council exempts the following people or groups of people from obtaining a Permit under the General Local Law:

Camping

The following people are exempt from obtaining a Permit under this section:

- (a) any person deemed vulnerable, homeless or suffering a mental illness
- (b) any person or group at the discretion of an Authorised Officer.

Asset Protection Permit

Authorised Officers have discretion in applying the provision to obtain Asset Protection Permits based on the identified scope of works.

Building works less than \$10,000 require a Permit but no application fee applies.

Matters to be considered when exercising discretion for an Asset Protection Permit may include, but will not be limited to:

- (a) essential safety measures – fire service upgrade, fire hose reels and smoke alarms
- (b) DHHS – public housing covered by the Department of Health and Human Services
- (c) internal fitouts within established hospitals, shopping centres and universities
- (d) unit fitouts within multi-storey buildings
- (e) pool safety barriers
- (f) internal stairways, awnings, balustrades
- (g) fitouts within established business parks with no impact to Council asset
- (h) access – where all associated vehicles and equipment is located on private property using an existing vehicle crossing and no occupation of Council land. This does not apply to building structures that are built on a boundary or in close proximity to Council assets.

Deliveries to commercial premises

A person who delivers goods such as bread, milk, papers or similar goods to a commercial premises where the goods are required by the proprietor of the commercial premises as part of preparing to open the premises.

GENERAL LOCAL LAW **NOTICE TO COMPLY**

To:
 (Name)

Address:
 (Address)

The following constitutes a breach under clause of Council's General Local Law.

Clause of the City of Stonnington General Local Law provides that

.....

It is the opinion of Council that

.....

To remedy the breach, you must do the following to my satisfaction

by am/pm on 20

What has to be done:

.....

Clause 16 of the City of Stonnington General Local Law provides that any person who is aggrieved by any Notice or direction under this Local Law may, within 28 days after the date of the issue of this Notice, apply to Council to be heard and may make a written submission for consideration by Council, but this right of itself will not in any way remove the person's obligation to act in accordance with any direction or notice that is applicable under this law.

You should contact (Responsible Officer) at the Municipal Offices
 between the hours of and for further information about this Notice, if required.

If you fail to comply with this Notice, you will be guilty of an offence and Council may initiate legal proceedings resulting in a penalty imposed on you up to \$2,000.00. Additionally Council may proceed to carry out any works required, the cost of which, in addition to the above penalty, will be your liability.

Date:
 (Name of Authorised Officer)

Phone:
 (Signature of Authorised Officer)

NOTE: This is not an infringement notice

NOTE: If this Notice relates to a contravention of a Permit and the Notice is not complied with, the Permit may be cancelled or suspended. If you do not wish to have the Permit cancelled or suspended you should comply with the directions in this Notice or show cause to Council in writing why the Permit should not be cancelled or suspended.
