## Mayor and CEO's Introduction

This year's proposed Budget is fundamentally shaped by the damaging impacts of the COVID-19 pandemic and clearly outlines Council's response to the needs of our community. It reflects the decisions that have been taken for the most effective use of our resources, our key role in economic growth, and our responsibility to deliver on social policies that meet local community needs.

This Proposed Budget has followed a rigorous and extensive consultation process with all Councillors and extended leadership team, reflecting the priorities, needs and collective vision of our diverse community.

However, this budget also reflects a radically different set of factors that were simply unimaginable in March. While it outlines the many important services provided by Council, and details the funding that is required to deliver these, it does so amidst a significant decline in revenue of \$9.6 million from the 2019/2020 forecast and a deeply impacted economic environment.

The Proposed Budget also demonstrates Council's strong commitment to the City's fiscal sustainability and to preserving its financial health for the benefit of future generations. The impacts of the COVID-19 pandemic are significant and will be felt well into this next financial year. The Proposed Budget balances the significant reduction in revenue with the delivery of critical Council services, facilities and improvements for our community.

This Proposed Budget is designed to help our community recover from the immediate and lingering impacts of the COVID-19 pandemic, position our local economy for re-growth, re-build community connections and confidence, and strengthen the City of Stonnington's financial resilience.

It should also be noted that this is the fourth and last Budget of the current Council Plan cycle. It delivers on the strategies outlined in the Council Plan 2017-2021 and lays the foundations for the development of the next four-year Council Plan, which will be a priority for a new Council due to be elected later this year.

### The process to date

Prior to the impacts of COVID-19, the draft 2020-2021 Budget had been developed through a comprehensive process of consultation and review in preparation for its planned adoption in June 2020.

The community was asked, "What would you like Council to fund in the 2020/2021 budget?" through extensive online and face-to-face engagement in late 2019. Council received a number of innovative ideas. The commitments outlined in the draft Budget are in response to the feedback gathered through this process.

The Proposed Budget will now undergo a further period exhibition, including an opportunity for the community to express their views at a special session of Council. Following this round of consultation, the draft Budget will be considered for formal adoption by Council on 31 August 2020.

### A Budget for the times

Council is responding to some of the immediate impacts of COVID-19 on our community, with a \$4.93 million support and relief package included in the draft Budget, to help members of our community.

This is reflected by:

- waiving Footpath Trading Permits and Food Act Registrations from April - September 2020
- introduction of an early payment discount of 2.0 percent to all rate payers
- halting the charge of interest on rates to provide relief to ratepayers
- waiving parking fees at carparks to assist traders, shoppers and visitors
- increased marketing and media campaigns to drive economic activity in local precincts
- targeted Community Recovery Grant Program
- significantly reduced parking enforcement through the State of Emergency period
- implementation of the 'Active Stonnington' program to improve the health and wellbeing of the Stonnington community through increased levels of sport and physical activity
- improved cleaning and security regimes to keep our open spaces and facilities safe for community use and social distancing requirements

## Fiscal sustainability

Council has determined that to meet our obligations of the community recovery effort and long term financial sustainability, there is little choice but to pass through the rate cap rise of 2.0 percent which has been determined by the Victorian Government.

Whilst this is in line with the Consumer Price Index (CPI) and is consistent with similar inner city and inner eastern councils, the City of Stonnington will implement a 2.0 percent discount for early payment of rates that are paid in full by 31 October 2020. This discount comes in addition to relief already announced for residents and businesses across a range of fees and charges and a revised hardship policy. For example, for those unable to pay the full amount up front, no interest will be charged.

This approach will help boost Council's cashflow, which in turn will reduce borrowings, and enable Council to provide the support those who may have difficulty paying their rates.

In some instances, rates payable may increase or decrease as a result of the most recent State Government valuation of their property.

## Surplus

The Proposed 2020-2021 Budget will deliver a significantly lower surplus than previous years at \$22.19 million. Council undertook an extensive review of expenditure, which factored in increases in materials, services and operating costs. Income was also set 2.0 percent lower than forecast in 2019-2020, driven by an expected reduction in open space contributions paid by developers and a reduction in statutory fees and fines.

## Savings

Council has identified significant internal savings to be spread evenly across the organisation, including productivity and efficiency improvements. There will be a significant focus on budget control and sustainability through improved service delivery, ensuring the economic co-benefits of direct investment flows directly to the community.

The Proposed Budget also underlines the importance of major projects such as the Prahran Town Hall restoration in creating employment and economic growth and reflects the need to maintain planning of capital investments for the longer term in order to have a range of shovel-ready projects for delivery when improved economic conditions allow.

The total capital works program outlined in the Proposed Budget is proposed to be \$67.79 million, which includes \$15.24 million of deferred expenditure from 2019-2020. This reprioritisation has assisted Council to maintain a healthy cash surplus versus restricted assets in future years.

## Festivals and Events

Council has a critical role to help nurture our artistic, cultural and community life, particularly now.

Over many years, the Festivals and Events program has become an integral part of the fabric of Stonnington, much loved by many thousands of patrons from all over Melbourne and beyond, and highly anticipated year on year.

While the overall Festivals and Events budget has been significantly reduced in response to the pandemic, it has been designed for flexibility and constant review, enabling us to deliver a program of activities tailored for the economic and social conditions the community finds itself during COVID-19.

## Highlights

Council continues to place significant emphasis on the delivery of local capital projects in the Proposed 2020/21 Budget. The overall capital works program includes:

- Roads, footpaths, Bridges and drainage works (\$14.7 million) – includes \$1.1 million carried forward
- Community building renewal and improvement works (\$20.9 million) – includes \$11.4 million carried forward
- Parks, open space and recreation renewal and improvement works (\$14.5 million) – includes \$2.5 million carried forward
- Strategic property acquisitions to increase open space within our community (\$10.0 million)
- Customer Experience Improvements and Digitisation Program to support current and future organisational and community needs and expectations (\$5.7 million)

As part of the overall programs noted above, the Proposed Budget includes many exciting initiatives and projects, including:

- Harold Holt Swim Centre masterplan Implementation and improvement to facility equipment (\$4.4 million) – includes \$2.3 million carried forward from 2019/20
- Annual program to upgrade and replace playgrounds in parks throughout the city (\$0.3 million)
- Energy efficiency implementation to further reduce Council's greenhouse gas emissions and utility costs (\$0.6 million)
- CCTV and access control system upgrade for a safer community (\$0.6 million)
- Malvern Town Hall precinct improved public pedestrian areas and carpark arrangement (\$0.7 million)
- Forest Hill masterplan implementation (\$1.3 million) – includes \$0.2 million carried forward from 2019-20
- Princes Gardens masterplan implementation (\$1.2 million) – includes \$0.5 million carried forward from 2019-20
- Implement the approved Stonnington Cycling Strategy (\$0.3 million)
- Urban Forest Strategy Implementation - Streets and Boulevards (\$0.5 million)
- Garbage & Recycling Bin Replacement Program (\$0.2 million)
- Chapel Street Streetscape Masterplan Implementation (\$1.8 million)

### Capital Funding

The budget projects a surplus of \$22.19 million (Total Comprehensive Income Statement). Our surplus directly funds the Capital Works Program for 2020/21 of \$67.79 million which includes projects that may be carried over from the 2019/20 year.

Of the \$67.79 million in capital funding required, \$44.04 million comes from Council Operations (surplus plus investment funded reserves), \$9.43 million from external grants and contributions, \$9.33 million from open space reserve (investment funded) and \$5.0 million to be funded from new borrowings.

Key Statistics	Forecast 2019-20 \$'000	Budget 2020-21 \$'000
<b>Total Expenditure</b>	151,693	155,922
<b>Operating Surplus</b> <small>(Note: Includes capital grants and contributions)</small>	36,051	22,191

We are still at the very early stages of understanding the economic impact of the COVID-19 pandemic. Quarterly review periods will provide the opportunity to review the capital program to assess the impact externalities such as State or Federal grant funding may have on the delivery of priorities.

Given the impact of COVID-19 pandemic and the reality of a significant reduction in revenue, we commend this Proposed Budget as financially responsible, enabling the achievement of the Annual Plan objectives and delivering on the strategies of the Council Plan 2017/2021.

## 1. Link to the Council Plan

This section describes how the Annual Budget links to the achievement of the Council Plan within an overall planning and reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term, medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

### 1.1 Legislative planning and accountability framework

The Strategic Resource Plan, part of and prepared in conjunction with the Council Plan, is a rolling four year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan. The Annual Budget is framed within the Strategic Resource Plan, considering the services and initiatives which contribute to achieving the strategic objectives specified in the Council Plan. The diagram below depicts the planning and accountability framework that applies to local government in Victoria.

Source: Department of Environment, Land, Water and Planning

The City of Stonnington's Council Plan 2017/2021 articulates Council's Vision, Goals and Strategic Actions that guide decision-making over a four-year term. The Council Plan was developed through a collaborative process involving the elected Councillors, the organisation and the community.

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes. The Council Plan, including the Strategic Resource Plan, is required to be completed by 30 June following a general election and is reviewed each year in advance of the commencement of the Annual Budget process.

### 1.1.2 Key planning considerations

#### Service level planning

Although councils have a legal obligation to provide some services— such as animal management, local roads, food safety and statutory planning—most council services are not legally mandated, including some services closely associated with councils, such as libraries, building permits and sporting facilities. Further, over time, the needs and expectations of communities can change. Therefore councils need to have robust processes for service planning and review to ensure all services continue to provide value for money and are in line with community expectations.

Service planning is an integral part of Stonnington's performance and accountability framework. A robust service planning framework ensures that council services:

- Align with Council's strategic objectives and deliver on community needs and expectations
- Meet the requirements of relevant legislation, regulations and frameworks, and are consistent with council policies
- Are well equipped to meet current and future challenges
- Are financially sustainable in the long-term.

## 1.2 Our purpose

**Our vision - “Stonnington will be an inclusive, healthy, creative, sustainable and smart community”**

### **Council's Commitment**

The primary purpose of the City of Stonnington is the wellbeing of the community. Council endeavours to achieve the best outcomes for the community having regard to the long-term and cumulative effects of its decisions.

In seeking to achieve its primary purpose, Council will facilitate the following:

- A) Promote the social, economic and environmental viability and sustainability of the City.
- B) Ensure the resources are used efficiently and effectively and that services are provided in accordance with the best value principles to best meet the needs of the community.
- C) Improve the overall quality of people's lives in the community.
- D) Promote appropriate business and employment opportunities.
- E) Ensure that services and facilities provided by Council are accessible and equitable.
- F) Ensure the equitable imposition of rates and charges.
- G) Ensure transparency and accountability in decision-making.

The purpose of local government is specified in the *Local Government Act 1989*.

### **Our Values**

City of Stonnington has a clear strength in the bond and affinity between its Councillors, the community and staff. Staff support the community leadership and governance role of Councillors, and work together to achieve the commitments of the Council Plan. Having all City of Stonnington staff practise the following organisational values enhances the quality of this partnership:

- **Cooperation** - we know that working together means we get better results. We are a team and together we achieve great things for our community. Our citizens, community and service users are the focus of all our actions.
- **Change and New ideas** - Finding better ways to do things and sometimes doing things that haven't been done before keeps us challenged, inspired and relevant.
- **Learning** - We encourage learning and create opportunities for people to grow and succeed for the benefit of our community.
- **Achievement** - We work hard to achieve great outcomes and we like how it feels when people stop to say, great job! So we strive for excellence and celebrate our success.
- **Communication** - We communicate in a respectful, transparent and inclusive manner. Being open and honest in our communications allows us to make better decisions.
- **Accountability** - We do things the right way for the right reasons. We are responsible and accountable for the work we do and the way we do it.

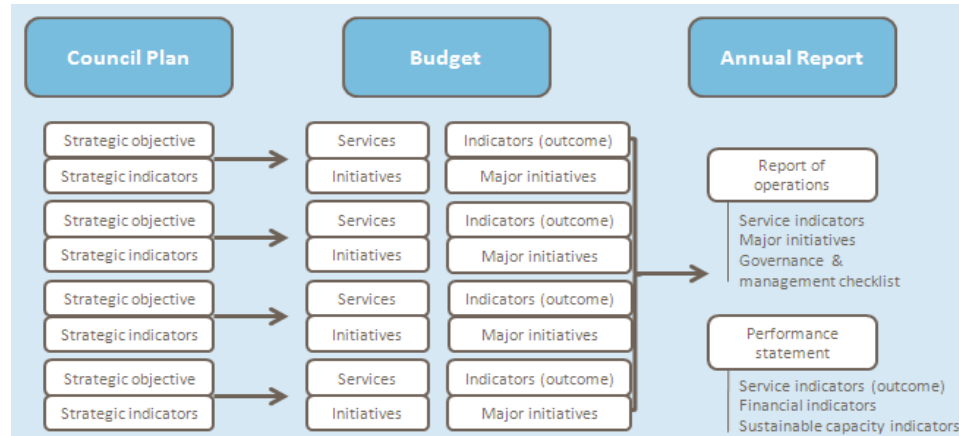

## 1.3 Strategic Objectives

Council delivers activities and initiatives under a broad range of major service categories. Each contributes to the achievement of the Strategic Objectives and Strategic Resource Plan as set out in the Council Plan for the years 2017/21. The following table lists the Strategic Objectives as described in the Council Plan.

Strategic Objective	Description
1. Community	An inclusive city that enhances the health and wellbeing of all residents, where people can feel safe, socially connected and engaged.
2. Liveability	The most desirable place to live, work and visit.
3. Environment	A cleaner, safer and better environment for future generations to enjoy.
4. Economy	A city that will grow its premier status as a vibrant, innovative and creative business community.
5. Strategic Resource Management (internal objective)	Council will strive for excellence, ensuring that it has the capacity to deliver timely and efficient services to meet community needs and to continually improve standards of service delivery. The City's capacity to deliver the objectives of the Council Plan is based on our service culture, people, good governance, business systems and technology, asset and risk management and responsible financial planning.

## 2. Services and service performance indicators

This section provides a description of the services and initiatives to be funded in the Budget for the 2020/21 year and how these will contribute to achieving the strategic objectives outlined in the Council Plan. It also describes a number of major initiatives, initiatives and service performance outcome indicators for key areas of Council's operations. Council is required by legislation to identify major initiatives, initiatives and service performance outcome indicators in the Budget and report against them in the Annual Report to support transparency and accountability. The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

## 4. Notes to the financial statements

This section presents detailed information on material components of the financial statements.

### 4.1 Comprehensive Income Statement

#### 4.1.1 Rates and charges

Rates and charges are a critical source of revenue that allows Council to deliver works and services for the community, in particular for this financial year, funding the relief and recovery response to the COVID-19 impacts. The Victorian Government Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2019/20 the FGRS cap has been set at 2.0 per cent. The cap applies to general rates and is calculated on the basis of council's average rates.

To achieve the objectives of the Strategic Resource Plan, while maintaining service levels and a strong capital expenditure program, the average general rate will be required to increase by 2.0 percent in line with the rate cap.

In 2020/21 the City of Stonnington will implement a 2.0 percent discount for early payment of rates that are paid in full by 31 October 2020. This discount comes in addition to relief already announced for residents and businesses across a range of fees and charges and a revised hardship policy. For example, those that are unable to pay the full amount up front, no interest will be charged.

Due to the impact of the revaluation process in the 2020/21 year, the rate percentage change on the Capital Improved Value of individual properties may vary. Variation to rates are impacted by the average general rate increase and the property valuation movements of individual properties relative to the average across the municipality. If a property increased by more in value than the average for the City of Stonnington, the general rates will increase by more than 2.0%, while if a property value increased by less than the average the rates will increase by less than 2.0% and may in fact reduce from the previous year.

Supplementary rates income will be lower by \$0.37 million compared to the 2019/20 forecast actual. Special rates and charges income relate to Traders Associations and are budgeted to be \$1.93 million.

Total rates and charges for 2020/21 will be \$120.91 million.

#### 4.1.1(a) The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

	Forecast Actual	Budget	Change	
	2019/20 \$'000	2020/21 \$'000	\$'000	%
General rates*	93,060	95,940	2,880	3.1%

#### 4.1.1(l) Fair Go Rates System Compliance

City of Stonnington Council is fully compliant with the State Government's Fair Go Rates System. The table below details the budget assumptions.

	Budget 2019/20	Budget 2020/21
Total Rates (\$'000)	87,766	94,550
Number of rateable properties (excluding Cultural and Recreational)	64,445	65,405
Base Average Rates	\$ 1,381.64	\$ 1,445.61
Maximum Rate Increase (set by the State Government)	2.25%	2.00%
Capped Average Rate	\$ 1,412.73	\$ 1,474.51
Maximum General Rates (\$'000)	89,741	96,440

Budgeted Supplementary Rates (\$'000)	1,000	999
Budgeted Total Rates Revenue (\$'000)	90,741	97,439
Early payment of rates discount	-	(500)

#### 4.1.1(m) Any significant changes that may affect the estimated amounts to be raised by rates and charges

There are no known significant changes which may affect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be affected by:

- The making of supplementary valuations (2020/21 estimated \$999,034; 2019/20 \$1,389,000 (Forecast Actual));
- The variation of returned levels of value (eg: valuation appeals);
- Changes in use of land such that rateable land becomes non-rateable land and vice versa; and
- Changes in use of land such that residential land becomes commercial land and vice versa.

#### 4.1.1(n) Differential rates

City of Stonnington has elected not to make a declaration of differential rates.

#### 4.1.2 Statutory fees and fines

	Forecast	Budget	Change	
	Actual 2019/20	2020/21	\$'000	%
	\$'000	\$'000	\$'000	%
Infringements and costs	12,834	11,109	(1,725)	(13.44%)
Court recoveries	1,602	1,106	(497)	(30.99%)
Town planning fees	2,092	1,124	(968)	(46.29%)
Land information certificates	150	171	21	14.11%
Permits	2,282	1,867	(415)	(18.19%)
<b>Total statutory fees and fines</b>	<b>18,960</b>	<b>15,376</b>	<b>(3,584)</b>	<b>(18.90%)</b>

Statutory fees and fines relate mainly to fees and fines levied in accordance with legislation and include animal registrations, *Public Health and Wellbeing Act 2008* registrations and traffic enforcement fees. Increases in statutory fees are made in accordance with legislative requirements.

The proposed budget shows a reduction of \$3.58 million in fees and charges revenue compared with year 2019/20. The decrease is mainly from the COVID-19 impact and includes a \$1.73 million decrease in parking fines, \$0.97 million decrease in statutory planning fee and \$0.42 million decrease in animal registrations and renewals parking fees income.

<b>Total user fees</b>	<b>17,383</b>	<b>16,568</b>	<b>(815)</b>	<b>(4.69%)</b>

User fees relate mainly to the recovery of service delivery costs through the charging of fees to users of Council's services. These include the use of leisure, entertainment and other community facilities and the provision of human services such as home help services.

In setting the budget, the key principle for determining the level of user charges has been to ensure that unit increases are in line with market levels. There will be an overall decrease in income generated from these fees in 2020/21 due to the COVID-19 social distancing restrictions put in place for the safety of the community.

Carpark income is expected to increase by \$0.13 million as the redeveloped Prahran Square carpark is open in 2020/21.

Building surveyors permits and applications activities are expected to reduce by \$0.84 million compared to 2019/20 due to the COVID-19 impact.

A detailed listing of user fees is included in Appendix B.

**Operating Grants**

Council receives various grants to continue to fund its operations. Some of the main grant programs are: Financial Assistant grants from Victoria Grants Commission \$3.0 million and Aged and Home Care of \$3.0 million. Library services is expected to receive \$0.74 million to fund its operations and funding of \$0.31 million is anticipated for the School Crossing Supervisors program. Maternal and Child Health and Immunisation program is expected to receive grants of \$0.79 million to subsidise Council's funding.

**Capital Grants**

Capital grants include \$0.79 million funding for parks and open space development, \$0.30 million for Community Infrastructure roads program, \$0.30 million for the Roads to Recovery program and \$0.02 million for the Healey Pavilion upgrade.

**Unspent grants received on condition that they be spent in a specific manner.**

<b>Total other income</b>	<b>9,284</b>	<b>7,739</b>	<b>(1,545)</b>	<b>(16.64%)</b>

Other income relates to a range of items mainly from miscellaneous income items.

Interest income is expected to decrease by \$0.92 million due to lower cash balances and a lower interest rate environment.

As the property valuation function has now transferred to the State Government, general valuation cost recoveries are no longer expected from the State Revenue Office (\$0.19 million reduction).

As a result of the COVID-19 pandemic, the hire of venues facilities are expected to be impacted (\$0.22 million reduction).

#### 4.1.7 Employee costs

<b>Total employee costs</b>	<b>66,581</b>	<b>69,553</b>	<b>2,971</b>	<b>4.46%</b>

Employee costs include all labour related expenditure such as wages, salaries and on-costs such as allowances, leave entitlements, employer superannuation and workcover premium.

Employee costs are budgeted to increase by 4.46% or \$2.97 million compared to 2019/20. This increase relates to the following key factors:

- The Council's Enterprise Agreement (EA) 10 to increase wages by 2.25% in 2020/21.
- Workcover rates expected to increase, significantly impacting on employee costs.
- A number of current position vacancies will be filled.
- A number of redeployment positions have been introduced in support of employees impacted by the closure of essential services .

There is a net increment of 12.0 FTEs in 2020/21, with 9.0 FTEs planned during the 2019/20 financial year as a result of organisational restructure to improve service delivery, however were placed on hold due to the COVID-19 environment.

The 2020/21 budget allows for the full year funding of the following new positions to support customer experience and the digitisation program:

- Business Systems and Technology - 3.0 FTE

<b>Total materials and services</b>	<b>54,085</b>	<b>54,960</b>	<b>875</b>	<b>1.62%</b>

Materials and services include the purchase of consumables, insurances, repairs and maintenance, payments to contractors for the provision of services and utility costs. Materials and services are forecast to increase by 1.62% or \$0.87 million compared to 2019/20.

The cost of major contracts are expected to increase generally by forecast CPI.

Office administration and supplies costs and legal and consulting fees are expected to be lower in 2020/21. Parking infringements appeal review costs and refund is expected to be incurred in 2019/20.

Over many years, the Festivals and Events program has become an integral part of the fabric of Stonnington, much loved by tens of thousands of patrons from all over Melbourne and beyond, and highly anticipated year on year.

Council Festivals and Events provide vital support for Stonnington's significant arts and culture industry, as well as driving tourism, boosting the local economy and providing people with important opportunities to celebrate and engage with their community. Stonnington is one of Melbourne's most important performing arts and cultural destinations. It is the location of some of the state's leading venues, galleries, performance spaces and institutions.

While the overall Festivals and Events budget has been significantly reduced in response to the pandemic, it has also been designed for flexibility and constant review, enabling us to deliver a program of activities tailored for the economic and social conditions the community finds itself during COVID-19.

Supporting the arts industry: COVID-19 has dramatically impacted on the viability of the arts and cultural sector. Events provide an opportunity to support the recovery of this industry by engaging local arts and cultural practitioners, programs will include:

- Roola Boola Children's Arts Festival
- Melbourne International Arts Festival Partnership Project
- Melbourne Fringe Partnership Project

Supporting community wellbeing: As restrictions ease, arts and cultural activity will play a critical role in rebuilding social confidence and providing opportunities for local community to reconnect, programs will include:

- Spring Into Gardening Sustainability & Gardening Event
- Christmas Program
- The Classics - Broadway – Concert
- The Classics - Opera - Concert
- The Classics - Symphony – Concert
- Pets In The Park Outdoor Event

Supporting the local economy: Arts and cultural activities such as events are also a key economic driver for local traders and bring vital business to our local community. Taking place throughout the precincts, these activities attract visitors and patrons from across Melbourne to visit precincts and shop or dine at businesses surrounding the activity, programs will include:

- Melbourne Food and Wine
- Melbourne Fashion Festival
- Spring Fashion and Hall of Fame
- Business Development Workshops

<b>Total equity</b>		<b>2,967,282</b>	<b>2,989,473</b>	<b>22,191</b>

#### 4.2.1 Assets

Cash and cash equivalents include cash and investments such as cash held in the bank and in petty cash and the value of investments in deposits or other highly liquid investments with short term maturities of three months or less. The decrease in 2020/21 is due to the funding of an increased capital work program in 2020/21.

Trade and other receivables are monies owed to Council by ratepayers and others for rates, parking fines and service provision fees. These receivables are cyclical in nature and are actively managed.

Other assets include items such as prepayments for expenses that Council has paid in advance of service delivery, inventories or stocks held for sale or consumption in Council's services and other revenues due to be received in the next 12 months.

Property, infrastructure, plant and equipment is the largest component of Council's worth and represents the value of all the land, buildings, roads, vehicles, equipment, etc. which has been built up by the Council over many years.

The increase in this balance is attributable to the net result of the capital works program (\$67.79 million of gross capital expenditure), offset by depreciation of assets (\$19.73 million), and the sale of property, plant and equipment (\$0.26 million).

#### 4.2.2 Liabilities

Trade and other payables are those to whom Council owes money as at 30 June. These liabilities are budgeted to be slightly above 2019/20 levels.

Provisions include accrued long service leave, annual leave and rostered days off owing to employees. These employee entitlements are only expected to increase marginally due to more active management of balances.

Interest-bearing loans are borrowings by Council repayable in the next twelve months. Council is budgeting to repay loan principal of \$0 million during 2020/21.

The increase in liability reflects the additional loan borrowings for the 2020/21 capital works program.

Working capital is the excess of current assets above current liabilities. This calculation recognises that although Council has current assets, some of those assets are already committed to the future settlement of liabilities in the following 12 months, and are therefore not available for discretionary spending.

	Forecast Actual 2019/20 \$'000	Budget 2020/21 \$'000	Variance \$'000

## 4.3 Statement of changes in Equity

### 4.3.1 Accumulated Surplus

Accumulated surplus which is the value of all net assets less reserves that have accumulated over time. During the year an amount of \$9.1 million (net) is budgeted to be transferred to retained earnings from Council's reserves.

This reflects the transfer of open space contributions to reserves and the subsequent usage of investment cash reserves and the Future Fund to partly fund the capital works program. This is a transfer between equity balances only and does not impact on the total balance of equity.

### 4.3.2 Reserves

#### Asset Revaluation Reserve

	Balance at beginning of financial year	Revaluation increment	Revaluation decrement	Balance at end of financial year
2020/21 Budget	\$'000	\$'000	\$'000	\$'000
<b>Asset Revaluation Reserve</b>	<b>1,772,663</b>	-	-	<b>1,772,663</b>

#### Other Reserves

	Balance at beginning of financial year	Transfer from accumulated surplus	Transfer to accumulated surplus	Balance at end of financial year
2020/21 Budget	\$'000	\$'000	\$'000	\$'000
<b>Other Reserves</b>				
- Open Space Reserve	54,373	9,397	(14,281)	49,489
- Future Fund Reserve	22,278	1,500	(5,720)	18,058
- Infrastructure - Roads Damaged Reserve	250	-	-	250
<b>Total Other Reserves</b>	<b>76,902</b>	<b>10,897</b>	<b>(20,001)</b>	<b>67,798</b>
<b>Total Reserves</b>	<b>1,849,565</b>	<b>10,897</b>	<b>(20,001)</b>	<b>1,840,461</b>

The Asset revaluation reserve represents the difference between the previously recorded value of assets and their current valuations.

An amount of \$10.9 million is budgeted to be transferred from accumulated surplus to the Open Space and the Future Fund reserves in 2020/21; \$20 million is to be utilised from the open space reserve to fund strategic property purchases and the capital program.

Council's reserves have been allocated for specific future purposes by Council and include:

- Open Space Reserve
- Future Fund Reserve
- Infrastructure - Roads Damaged Reserve

The Open Space Reserve is used to record open space contributions from developers and utilisation of this reserve is to purchase or develop open space assets.

The Future Fund Reserve is a reserve created to assist Council when making strategic property acquisitions and funds for Council to separately identify as being set aside to meet a specific purpose in the future and to which there is no existing liability.

The Infrastructure - Roads Damaged Reserve was created to enable Council to utilise forfeited road asset protection and work zones maintenance bonds on road and signage maintenance.

#### 4.4 Statement of Cashflow

This section analyses the expected cashflows from the operating, investing and financing activities of Council for the 2020/21 year. Budgeting cash flows for Council is a key factor in setting the level of rates and providing a guide to the level of capital expenditure that can be sustained with or without using existing cash reserves.

The analysis is based on three main categories of cash flows:

- **Operating activities** - Refers to the cash generated or used in the normal service delivery functions of Council. Cash remaining after paying for the provision of services to the community may be available for investment in capital works, or repayment of debt.
- **Investing activities** - Refers to cash generated or used in the enhancement or creation of infrastructure and other assets. These activities also include the acquisition and sale of other assets such as vehicles, property and equipment.
- **Financing activities** - Refers to cash generated or used in the financing of Council functions and include borrowings from financial institutions and advancing of repayable loans to/from other organisations. These activities also include repayment of the principal component of loan repayments for the year.

#### **4.4.1 Net cash flows provided by/used in operating activities**

The decrease in cash inflows from operating activities is mainly due to: \$3.92 million reduction in statutory fees and fines; \$0.88 million reduction in user fees; \$0.92 million increase in operating grants; \$0.53 million reduction in capital grants; \$6.81 million reduction in monetary contributions; \$0.54 million reduction in reimbursements; \$0.92 million reduction in interest received.

The majority of these impacts are directly attributable to the economic impacts of the COVID-19 pandemic.

Partially offsetting these cash inflow reductions is a \$0.15 million decrease in other receipts and \$5.49 million increase in GST refunds; \$2.97 million increase in other employee costs; \$4.75 million increase in materials and services and a \$8.55 million increase in rates and charges, which is in line with the 2% increase in average rates.

#### **4.4.2 Net cash flows provided by/used in investing activities**

The increase in payments for investing activities represents an increase in capital works expenditure of \$25.23 million compared to 2019/20. Section 4.5 of this budget report provides more detail on the capital works program.

#### **4.4.3 Net cash flows provided by/used in financing activities**

For 2020/21, the total of interest bearing loans and borrowings proceeds is \$5.0 million, repayments of \$0 million and finance charges is \$0.34 million.

#### **4.4.4 Cash and cash equivalents at the end of the financial year**

Total cash and investments is forecast to decrease by \$29.66 million to \$81.99 million as at the end of 2020/21, reflecting Council's strategy of using excess cash and investments to enhance and create new infrastructure.

## 4.5. Capital works program

For the Year Ended 30 June 2021

This section presents a listing of the capital works projects that will be undertaken for the 2020/21 year, classified by expenditure type and funding source. Works are also disclosed as current budget or carried forward from prior year.

### Works carried forward (\$15.24 million)

At the end of each financial year there are projects which are either incomplete or not commenced due to planning issues, weather delays and extended consultation. For the 2019/20 year, the forecasted \$15.24 million of capital works incomplete will be carried forward into the 2020/21 year.

The more significant projects include the Prahran Town Hall Masterplan development (\$7.0 million), Harold Holt Swim Centre Masterplan (\$2.3 million), Harold Holt Swim Centre concourse and grandstand (\$0.12 million), Prahran Market sub-station and distributions boards upgrades (\$1.4 million), Orrong Road Stage 3 works (\$0.7 million) and East Malvern Tennis facility renewal works (\$0.95 million).

### Total Property (\$30.85 million)

The property class comprises land and buildings including community facilities, municipal offices, sports facilities and pavilions.

The more significant projects include Strategic land purchases for open space (\$10 million), Harold Holt Swim Centre Masterplan implementation (\$2.10 million), Swimming pool tiling works (\$1.4 million), Energy efficiency program for Council buildings (\$0.55 million),

### Total Plant and Equipment (\$5.28 million)

Plant and equipment includes: heritage plant and equipment; plant, machinery and equipment; fixtures, fittings and furniture; computers and telecommunications; and library books.

The more significant projects include ongoing cyclical replacement of the plant and vehicle fleet (\$1.90 million), information technology (\$0.68 million), fixtures, fittings and furniture upgrades (\$0.59 million), library materials (\$1.03 million), and the art program (\$0.42 million).

### **Total Infrastructure (\$31.37 million)**

Infrastructure includes roads, bridges, footpaths, cycleways, drainage, recreation, leisure and community facilities, parks, open space and streetscape improvements and other infrastructure.

For the year 2020/21, \$13.29 million will be spent on road projects incorporating drainage, bridges, culverts, footpaths and cycleways, including:

Local road refurbishment projects (2,260 million) such as Hedgeley Avenue (0.65 million) and Avenel Road (0.60 million); bridges renewal (\$0.06 million); footpath renewal and maintenance works (\$0.7 million); right of ways renewals south of Ardrie Road (0.55 million); Stage 2 of Orrong Road - Toorak reconstruction (\$0.70 million); Allenby Avenue reconstruction (0.55 million) and Chapel Street Masterplan \$1.75 million).

\$1.3 million will be spend on drainage projects, including various drainage improvements and upgrade works from street refurbishments and upgrade works.

\$9.9 million will be expended on parks, open space and streetscapes and \$2.75 million will be spent on Recreational, Leisure and Community facilities, including: Forrest Hill Masterplan (\$1.05 million); Princes Gardens Masterplan (\$0.70 million); and Toorak Park Masterplan (\$0.60 million).

Other infrastructure expenditure of \$2.36 million includes: off-road and on-road cycling strategy implementations; bin replacement and updates such as solar compacting units; signage, and Road Safety Works.

### **Expenditure Type: Asset Renewal (\$38.98 million), New Assets (\$12.93 million), Upgrade (\$13.71 million) and Expansion (\$1.88 million)**

A distinction is made between expenditure on new assets, asset renewal, upgrade and expansion. Expenditure on asset renewal is expenditure on an existing asset, or on replacing an existing asset that returns the service of the asset to its original capability.

Expenditure on new assets does not have any element of expansion or upgrade of existing assets but will result in an additional burden for future operation, maintenance and capital renewal.

The major projects included in the above categories, which constitute expenditure on new assets mainly relate to Strategic land purchases (\$10 million), (\$0.61 million) on CCTV and access control systems, and open space related projects such as dog park developments (\$0.30 million). The remaining capital expenditure represents renewals and expansion/upgrades of existing assets.

Key to Forecast Trend:

- + Forecast improvement in Council's financial performance/financial position indicator
- o Forecasts that Council's financial performance/financial position indicator will be steady
- Forecast deterioration in Council's financial performance/financial position indicator

#### Notes to indicators

**1 Adjusted underlying result** – An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Financial Performance is expected to deteriorate from 2019/20 to 2020/21 from the expected lower levels of activities in 2020/21 and the impact from the COVID-19 pandemic. increased borrowing costs and increased depreciation expenses. This will stabilise in 2021/22 through modest user fee income increases, operational efficiencies and cost control measures and assumed rate cap stability. Financial performance will be at risk should future reductions in the rate cap occur.

**2 Working Capital** - The proportion of current liabilities represented by current assets. Working capital is forecast to decrease from 2018/19 levels due to continued use of cash reserves to fund the extensive capital program and increased borrowings forecast.

**3 Unrestricted cash** - Reflects the broad objective that sufficient cash which is free of restrictions is available to pay bills as and when they fall due. The indicator is negative in 2018/19 due to term deposits with maturity over 90 days classified under Other Financial Assets. When term deposits with maturity over 90 days is included with cash and cash equivalents the indicator for 2018/19 is 169.5%. The ratio starts to reduce as cash is utilised for significant capital works program during the years 2020/21 to 2022/23.

**4 Loans and borrowing compared to rates** - Trend indicates Council's new long term borrowings to part fund major capital works over the next four years.

**5 Asset renewal** - This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

**6 Rates concentration** - Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates a relatively stable level over the outlook period.

## Appendices

The following appendices include voluntary and statutory disclosures of information which provide support for the analysis contained in sections 1 to 5 of this report.

This information has not been included in the main body of the budget report in the interests of clarity and conciseness. Council has decided that whilst the budget report needs to focus on the important elements of the budget and provide appropriate analysis, the detail upon which the annual budget is based should be provided in the interests of open and transparent local government.

The contents of the appendices are summarised below:

B	Fees and charges schedule	47
C	Ten year capital works program	74
D	Operating Initiatives	85

## Appendix A Budget process

This section lists the budget processes to be undertaken in order to adopt the Budget in accordance with the *Local Government Act 1989* (the Act) and *Local Government (Planning and Reporting) Regulations 2014* (the Regulations).

Under the Act, Council is required to prepare and adopt an annual budget for each financial year. The budget is required to include certain information about the rates and charges that Council intends to levy as well as a range of other information required by the Regulations which support the Act.

On 9 April 2020, the Minister for Local Government extended the deadline for 2020/21 council budgets until 31 August 2020 which allow council to consider the impacts of COVID-19 on the operations while continue to focus on service delivery.

The 2020/21 budget, which is included in this report, is for the year 1 July 2020 to 30 June 2021 and is prepared in accordance with the Act and Regulations. The budget includes financial statements being a budgeted Comprehensive Income Statement, Balance Sheet, Statement of Changes in Equity, Statement of Cash Flows and Statement of Capital Works. These statements have been prepared for the year ended 30 June 2020 in accordance with the Act and Regulations, and are consistent with the annual financial statements which are prepared in accordance with the Australian Accounting Standards. The budget includes Council's interest in the Regional Landfill Clayton South joint venture which is presented in the financial accounts as an associate investment.

The budget also includes detailed information about the rates and charges to be levied, the capital works program to be undertaken, the human resources required, and other financial information Council requires in order to make an informed decision about the adoption of the budget.

In advance of preparing the budget, Officers firstly review and update Council's long term financial projections. Financial projections for at least four years are ultimately included in Council's Strategic Resource Plan, which is the key medium-term financial plan produced by Council on a rolling basis. The preparation of the budget, within this broader context, begins with Officers preparing the operating and capital components of the annual budget during December and January. A draft consolidated budget is then prepared and various iterations are considered by Council at informal briefings during February to April. A 'proposed' budget is prepared in accordance with the Act and submitted to Council in April for approval 'in principle'. Council is then required to give 'public notice' that it intends to 'adopt' the budget. It must give 28 days notice of its intention to adopt the proposed budget and make the budget available for inspection at its offices and on its website. A person has a right to make a submission on any proposal contained in the budget and any submission must be considered before adoption of the budget by Council.

The final step is for Council to adopt the budget after receiving and considering any submissions from interested parties. The budget is required to be adopted by 31 August and a copy submitted to the Minister after adoption. The key dates for the budget process are summarised below:

Budget process	Timing
1. Minister of Local Government announces maximum rate increase	Dec
2. Officers update Council's long term financial projections	Dec/Jan
3. Officers prepare operating and capital budgets	Jan/Feb
4. Council to advise ESC if it intends to make a rate variation submission	Jan/Feb
5. Councillors consider draft budgets at informal briefings	Feb/April
6. Council submits formal rate variation submission to ESC (if appropriate)	Mar
7. Proposed budget submitted to Council for approval	Jun
8. Public notice advising intention to adopt budget	Jun
9. Budget available for public inspection and comment	Jul
10. Public submission process undertaken	July
11. Submissions period closes (28 days)	Aug
12. Submissions considered by Council	Aug
13. Budget and submissions presented to Council for adoption	Aug
14. Copy of adopted budget submitted to the Minister	Sep
