

Council Plan 2017–2021

YEAR 1

City of
STONNINGTON

Acknowledgement

We acknowledge that the City of Stonnington sits on the traditional land of the Boon Wurrung and Wurundjeri people of the Kulin Nation, and offer our respects to their elders, past and present. We recognise and respect the cultural heritage of this land.

Foreword

The City of Stonnington covers an area of 25.62 square kilometres, including the suburbs of Prahran, Windsor, South Yarra, Toorak, Armadale, Malvern, Malvern East, Glen Iris and Kooyong. Approximately 114,991 people live in the City of Stonnington.

The City of Stonnington's Council Plan 2017–2021 articulates Council's Vision, Goals and Strategic Actions that guide decision-making over a four-year term.

It is Council's vision that Stonnington will be an inclusive, healthy, creative, sustainable and smart community.

Council's Vision will be implemented through four key pillars:

.....
Community

.....
Liveability

.....
Environment

.....
Economy

The four pillars reflect the shared priorities of our community and Council and are consistent with our proud history and vision for a liveable future. For each pillar, there is a framework which expresses our strategies, actions and measures which outline the key services and projects to be delivered to our community. The Strategic Resource Plan sets out how Council will provide the resources needed to implement the strategies and actions of the Council Plan.

The City of Stonnington is required to submit a completed Council Plan to the Minister for Local Government every four years, as legislated by the Victorian *Local Government Act 1989*.

Mayor's Message

The City of Stonnington's Council Plan 2017–2021 articulates Council's vision, goals and strategic actions that guide decision-making over a four-year term.

Residents and visitors enjoy Stonnington for its high standard of urban design, planning and amenity that helps maintain and enhance a quality lifestyle, open spaces, walking tracks, parks, tree-lined streets and activity precincts.

We support our residents throughout all life stages by providing a range of services such as maternal and child health, childcare, youth and aged services.

We are a connected community that celebrates diversity and creativity – our extensive arts and culture program is world-class and brings people together to celebrate and foster a place of belonging, social cohesion and inclusiveness.

The most significant challenge for our City will be accommodating Melbourne's population growth over the next thirty years. Council will need to balance the demand for open space and community and recreational facilities, while protecting amenity and heritage values.

We will continue to plan for a municipality that has vibrant activity centres that provide a range of living, working, shopping and community opportunities at the heart of their respective neighbourhoods. Stonnington is committed to creating a sustainable and resilient City with enhanced natural and urban environments that will be enjoyed by future generations.

An ongoing priority for Council is to deliver services that respond to changing demographics from residential growth within a rate-capped environment. By taking advantage of the unprecedented pace of innovative technology, we can make our City more prosperous and sustainable. Smart technology will lead to better use of infrastructure and deliver energy efficiency and improvements in services. We will continually review our service models to reduce costs while maintaining the current high-level services and standards that the community expects.

Another challenge will be to protect our environment, respond to the impacts of climate change, make sustainable transport a reality, increase our open space, make better use of our in-demand community and sporting facilities, support a diverse local economy, encourage healthy, active and connected communities and respond to trends and issues.

It is our vision that Stonnington will be an inclusive, healthy, creative, sustainable and smart community.

Council's vision will be implemented through four key pillars:

- > Community
- > Liveability
- > Environment
- > Economy

These pillars reflect the shared priorities of our community and Council, and are consistent with our proud history and vision for a liveable future. For each pillar, there is a framework that reflects our strategies, actions and measures which outline the key services and projects to be delivered to our community. The Strategic Resource Plan sets out how Council will provide the resources needed to implement strategies and actions within the Council Plan.

Community consultation for the Council Plan sought to understand the important local issues facing our community now and into the future to inform Council decisions.

The Council Plan is a collaborative effort involving Councillors, the organisation and our community. The community engagement process helped us develop ideas and explore the vision, goals and strategic activities. The commitments outlined in the Council Plan are in response to the feedback gathered through a broad consultative process and an analysis of relevant trends.

Council would like to thank the community for their contribution to this Council Plan 2017–2021.

In an effort to continuously improve the City's facilities and public places, major 'place-making' projects: Cato Square, Chapel Street and the Forrest Hill Precinct will continue over the next four years. Council is committed to redeveloping the Prahran Aquatic Centre, Harold Holt Swim Centre and Prahran Town Hall, and will continue to upgrade sporting pavilions and other essential and important recreational facilities.

Council plays a vital role in ensuring local businesses operate at the highest level and that the local laws are upheld to protect local amenity. We are also committed to strengthening the capability of existing and emerging businesses as we continue to build partnerships with local business, industry and government so that businesses will succeed and prosper.

Our community expects Council to continually improve its own environmental performance so as to lead by example through a number of key priority areas. Over the coming years we will also continue to support community education and engagement programs on energy conservation, water management, waste management, biodiversity and sustainable transport.

Stonnington is a vibrant community and a desirable place to live, work and visit. We look forward to working closely with our community, to continue to build on the success of our City, and to create opportunities that fulfil our community's expectations, through the implementation of this new Council Plan.

Stonnington Ward Map

Our Pillars

Community

An inclusive City that enhances the health and wellbeing of all residents, where people can feel safe, socially connected and engaged.

Liveability

The most desirable place to live, work and visit.

Environment

A cleaner, safer and better environment for current and future generations to enjoy.

Economy

A City that will grow its premier status as a vibrant, innovative and creative business community.

Vision

Stonnington will be an inclusive, healthy, creative, sustainable and smart community.

What is a Council Plan

The Council Plan 2017–21 has been prepared in accordance with the *Local Government Act 1989* and associated regulations.

Vision

Council's vision is an aspirational statement about the City.

Key Strategic Objectives (Pillars)

The Key Strategic Objectives identify the broad direction that Council commits to pursue over its term.

Strategies

Strategies are set to achieve the Key Strategic Objectives (Pillars).

Strategic Indicators

Strategic Indicators provide a way to measure and monitor the progress and success of the Key Strategic Objectives. These indicators reflect the broad progress and are not necessarily measures of specific Council actions.

Strategic Resource Plan

The Strategic Resource Plan outlines the financial and non-financial resources required to achieve the outcomes of the Council Plan.

Budget Activities

Specific actions over the four years are identified as part of the Annual Budget process. Budget Activities set out how Council will meet each strategic objective.

See Attachment 1 for Annual Plan.

Strategic Planning Framework

The planning and accountability framework is found in part 6 of the Act and in the regulations. The legislation requires councils to prepare the following documents:

- > a Council Plan within the period of six months after each general election or by 30 June, whichever is later
- > a Strategic Resource Plan for a period of at least four years and include this in the Council Plan
- > a Budget for each financial year
- > an Annual Report for each financial year.

The diagram (top right) shows the relationships between the key planning and reporting documents that make up the planning and accountability framework for local government.

The Council Plan is also supported by a number of other strategies, policies, plans and guidelines that guide the strategic direction of Council. The Municipal Public Health and Wellbeing Plan and the Municipal Strategic Statement are two legislatively required documents that are aligned to the Council Plan.

Council is committed to delivering the following health and wellbeing outcomes through the implementation of this plan:

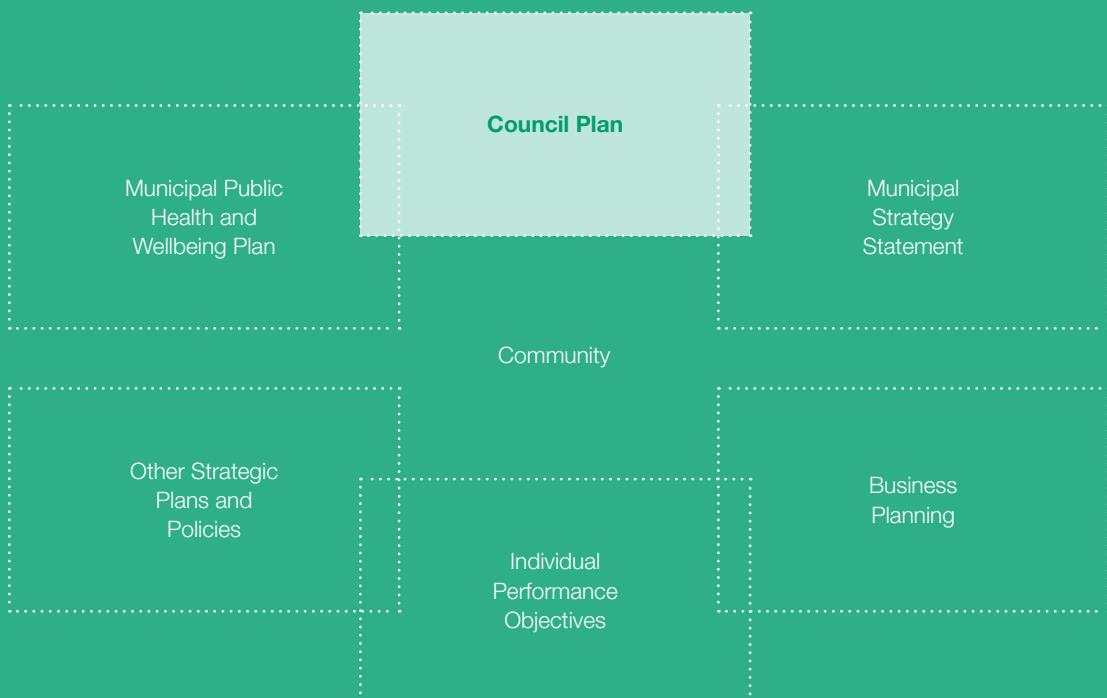

- >  Equity
- >  Inclusion
- >  Sustainability
- >  Personal Health and Wellbeing
- >  Community Connectedness
- >  Personal and Community Safety

Planning and Accountability Framework

Source: Department of Environment, Land, Water and Planning

Strategic Planning Framework

Our City

The City of Stonnington (the City) was formed in June 1994 through the amalgamation of the Cities of Malvern and Prahran. It is located in Melbourne's inner south-eastern suburbs, less than five kilometres from the centre of Melbourne and alongside the Yarra River on the traditional land of the Boon Wurrung and Wurundjeri people.

Stonnington covers an area of 25.62 square kilometres. The City takes in the suburbs of Prahran, Windsor (part), South Yarra (part), Toorak, Armadale, Malvern, Malvern East, Kooyong and Glen Iris (part).

The City is predominantly residential, although there are significant commercial centres along Chapel Street (South Yarra, Prahran and Windsor), High Street and Glenferrie Road, Malvern and at the Chadstone Shopping Centre (Malvern East). Stonnington is well known for its shopping and lifestyle precincts, parks and gardens, leafy streets and historical architecture.

Our People

In 2017, the estimated resident population of the City is 114,991 and is forecast to increase to 124,420 persons by 2021. By 2036, our population is forecast to increase by 46,480 persons, at an average annual change of 1.55 per cent¹. However, population growth will differ significantly across the municipality. Growth will mostly occur in South Yarra, Malvern East and Prahran, and to a lesser extent Glen Iris, Armadale, Toorak, Malvern, Windsor and Kooyong.

The age structure provides key insights into the level of demand for age based services and facilities. Stonnington has a relatively young population, with a median age of 35 and with 31 per cent of the population aged 20 to 34 years. In the City, 21 per cent are couple families with children, 24 per cent couple families without children and 5.6 per cent one parent families. Of all households, 31.3 per cent are single person households and 9.2% are group households.

Research shows that Stonnington residents enjoy a high level of health and wellbeing compared to the rest of Victoria. However, the City has pockets of significant disadvantage. The distribution of household earnings shows great disparity between high and low income households. We have a unique demographic make-up, with many people living at the very lowest end of the socio-economic scale and many at the highest end of the scale. This brings specific challenges for inclusion and participation.

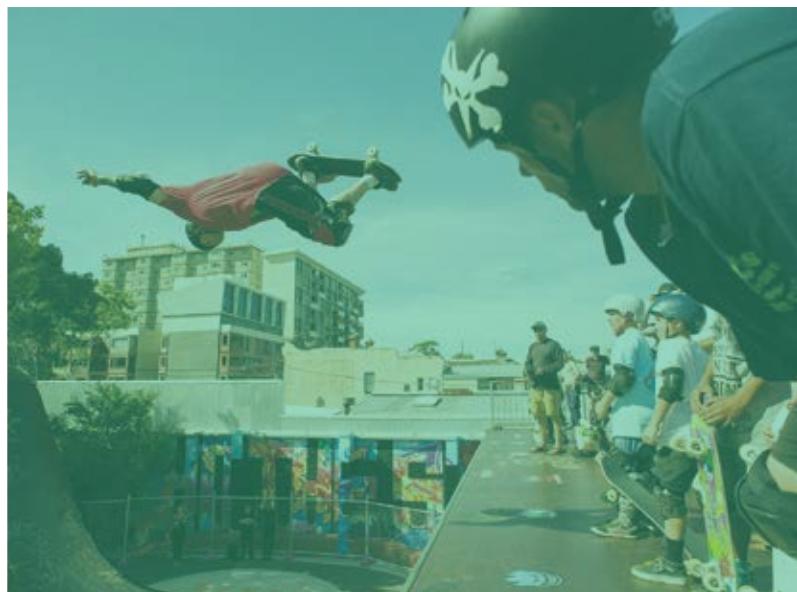

It is estimated that there are more than 20,000 non-English speakers living in the City and 21 per cent of people speak another language at home including Greek, Mandarin, Cantonese, Italian and Hindi.

It is estimated that up to 18,500 residents have a disability of some type, and that almost one in 10 residents acts as an unpaid carer.

The level of vehicle ownership is lower than the Melbourne average due to frequent and accessible public transport, driven by high-density housing and limited parking in the inner suburbs.

¹ (.id Population and household forecasts, 2011 to 2036)

Research shows that Stonnington residents enjoy a high level of health and wellbeing compared to the rest of Victoria.

Stonnington has a relatively young population, with a median age of 35 and with 31 per cent of the population aged 20 to 34 years.

The most significant challenge is the role the City will play in accommodating Melbourne's population growth over the next thirty years.

Our Strategic Challenges

The City of Stonnington faces a number of challenges given our inner city position.

Other levels of government will set policy that is contrary to our own strategic direction.

Melbourne's **growth** is accelerating.

Development pressure will continue to intensify and community amenity will change.

With increased residential density, social and **community connectedness** becomes more important.

Our **open spaces** will become more important.

Transport and **access** become more important and are complex to change.

Maintaining and improving our **assets** (including community facilities) comes at a cost.

Digitisation and **technology** is rapidly evolving.

We live in a **24/7 communication** environment.

Our **services** will need to respond to a changing demographic.

In the community, the conflict between **personal interests** and **common good** will persist.

Our **community** will still expect high quality services.

Our more **vulnerable** community members will need ongoing support.

The **climate** is changing.

The **economy** is evolving.

Our ability to raise **revenue** is constrained; trade-offs might need to be made.

The importance of **risk, financial sustainability, engagement** and **transparent reporting** cannot be underestimated.

The most significant challenge is the role the City will play in accommodating Melbourne's population growth over the next thirty years. As our population grows, Council will need to balance the demand for our open spaces, community and recreational facilities, whilst protecting important amenity and heritage values.

An ongoing priority for Council is to deliver services to the community that respond to changing demographics from residential growth within a rate capped environment. We will continually review our service models to reduce costs while maintaining the current high service levels and standards that the community expects.

Alongside population growth and capped rates, our challenge will be to protect the environment, respond to the impacts of climate change, make sustainable transport a reality, increase our open space, make better use of our in-demand community and sporting facilities, support a diverse local economy, foster healthy and connected communities and respond to trends as they emerge.

Community Engagement

The City of Stonnington is committed to best practice engagement as an essential part of good governance and we acknowledge the role of stakeholders in achieving the City of Stonnington's vision. As a fundamental principle, community engagement outcomes inform Council so that it can act in the best interests of the community.

Community consultation for the Council Plan sought to understand the important local issues facing our community now and into the future, so that Council can best focus our efforts and resources.

To inform the Council Plan, Council engaged with our community through:

- > Online and paper surveys;
- > Consultation Portal 'Connect Stonnington' – including online polls and forums;
- > Workshops, forums and community meetings;
- > Community newsletters and e-newsletters;
- > Advertisements in local newspapers;
- > Social media (ie Facebook reached over 6,330 people); and
- > 4,000 postcard drops to random households and publications (*InStonnington* magazine).

Overwhelmingly, 84 per cent of participants told us that liveability is the most current issue. Sixty per cent of residents told us that our future focus should be on access to services and facilities, amenity/character of the area and liveability (generally of equal importance).

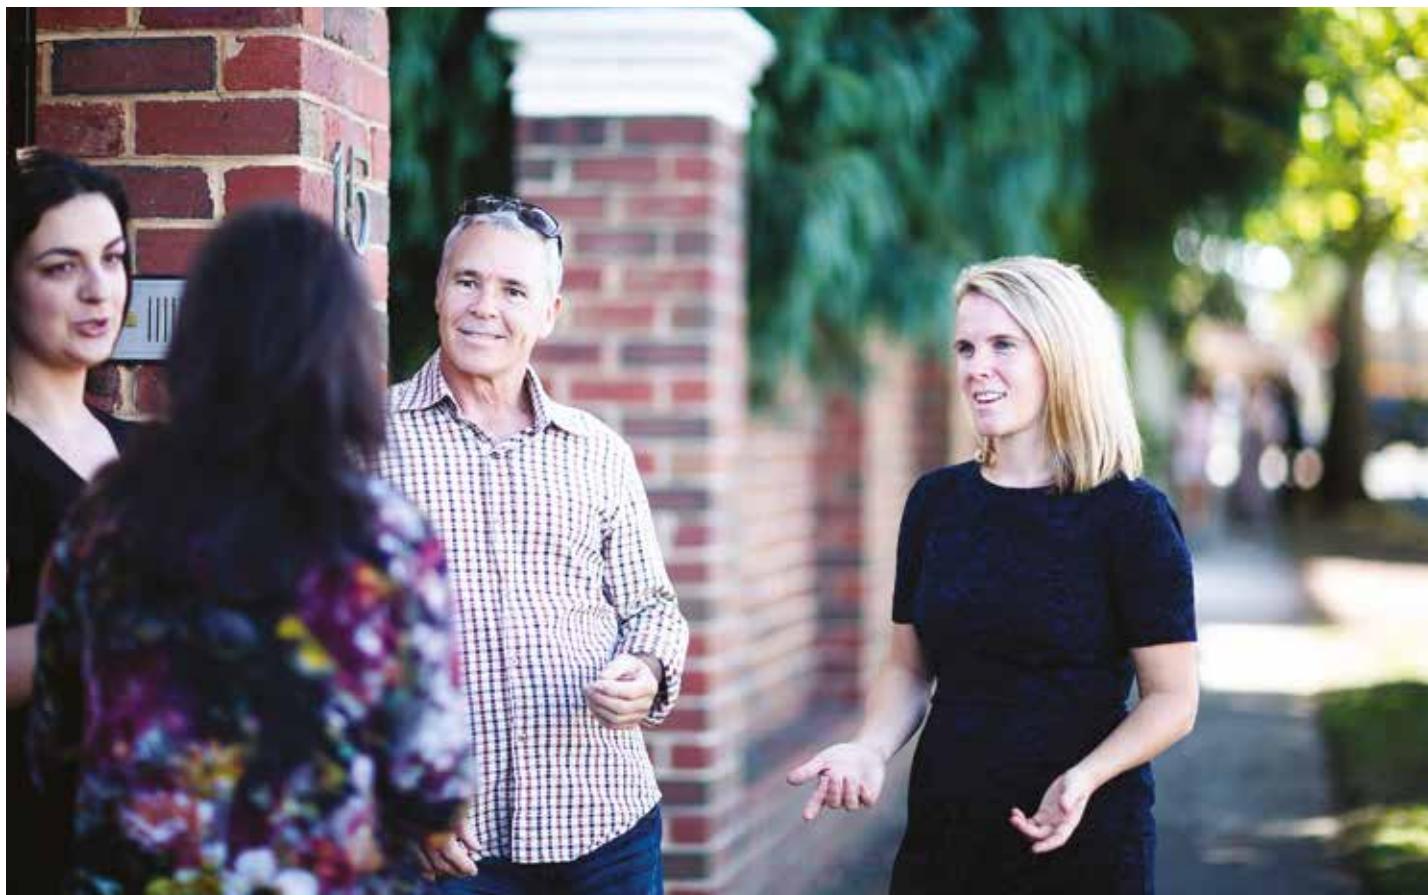

We also heard that our community values:

- > Being involved in their local community groups,
- > Council's extensive community events program,
- > Council's community transport program, sustainability actions, recycling and rubbish collection services, and
- > Access to shopping strips and access to café and retail shops.

Into the future, our community is concerned about:

- > Impact of large developments on the environment,
- > Sustainability of construction,
- > Removal of established trees,
- > Access to public transport and more connected bike paths,
- > Evening and night time safety, and
- > Affordable and inclusive community based activity groups and programs.

The Council Plan reflects these values and addresses the feedback provided by the community through its Budget Activities (see Annual Plan).

Human Rights

The City of Stonnington recognises and respects that everyone has the same human rights entitlement to allow them to participate in, and contribute to, society and our community. We recognise that all persons have equal rights in the provision of, and access to, Council services and facilities. We recognise that, at times, such rights may be limited, insofar as to strike a balance between individual rights and the protection of public interest.

The Council Plan 2017–21 complies with and embraces the fundamental principles of the *Victorian Charter of Human Rights and Responsibilities Act 2006*.

The Council Plan 2017–21 complies with and embraces the fundamental principles of the *Victorian Charter of Human Rights and Responsibilities Act 2006*.

Community

An inclusive City that enhances the health and wellbeing of all residents, where people can feel safe, socially connected and engaged.

Supporting our residents throughout all life stages is achieved through Council's many service programs including maternal and child health, childcare, youth and aged services. Council also plays an important role in ensuring our local businesses operate at the highest standards and that the local laws of the municipality are upheld to protect the local amenity. The City's extensive arts and culture program is well-known and highly enjoyed by our community. These programs purposely bring people together to celebrate and foster a sense of belonging and enjoyment in the local community.

Council owns and operates 42 community facilities, including aquatic centres, childcare centres, community centres, kindergartens, libraries, maternal and child health centres and senior citizen clubs. Over the next four years, Council is committed to redeveloping the Prahran Aquatic Centre, Harold Holt Swim Centre, Cato Street car park and Prahran Town Hall, and will continue to upgrade sporting pavilions and other essential recreational facilities. Over the four years, it is also expected that Council may even need to make serious decisions about the future of some activities in response to changed funding levels, community demands and population trends.

The City is committed to providing a safe community for everyone who lives, works and visits Stonnington. CCTV in Stonnington is used as part of a package of crime prevention measures, complementing safety measures such as local policing, liquor licensing, local laws, planning controls, public place lighting, urban design and education programs.

Community engagement is fundamental to help Council understand local priorities, issues and needs. Our community engagement practices will continue to be dynamic and flexible to allow for maximum participation. We also recognise that a responsive customer service experience is just as important. In a fast-paced and rapidly changing 24/7 digital environment, the role of technology becomes more important to make it easier for our community to interact with us.

Strategic challenge:
Engaging with new and emerging
culturally and linguistically diverse
(CALD) communities.

Our Strategic Challenges

Transition to the National Disability Insurance Scheme (NDIS) as the primary support structure for people with disability, their families and carers will require a review of Council aged care services as more care options are likely to be provided by the private sector.

Managing community safety perceptions and local government's role in community safety.

Engaging with new and emerging culturally and linguistically diverse (CALD) communities.

Managing sporting and community facility occupancy and use where demand exceeds capacity.

Responsive customer service in a 24/7 technology driven society.

Supporting connected communities as residential densification and apartment living increases.

Advocacy to Victorian and Australian Government to fundamentally improve social housing infrastructure and mental health services to help our most vulnerable residents.

Increasing opportunities for organised and passive physical exercise, as nearly one-fifth of Stonnington residents do not meet the National Physical Activity Guidelines.

Enforcement of amenity related legislation on behalf of residents during a time of population growth and high volume construction works (e.g. *Environment Protection Act 1970*, *Stonnington General Local Law 2008*, *Road Management Act 2004*, *Planning and Environment Act 1987* and *Public Health and Wellbeing Act 2008*).

Strategic challenge:
Improving community health and wellbeing outcomes through quality service delivery and strategic partnerships.

Strategies

We will:

- | | |
|-----------|--|
| C1 | Enhance community health and wellbeing outcomes through quality service delivery and strategic partnerships. |
| C2 | Strengthen Council's commitment to support our diverse and inclusive communities. |
| C3 | Implement community safety initiatives and fair compliance processes to address community safety issues. |
| C4 | Enhance community engagement to ensure Council makes long-term decisions in the best interests of the community. |
| C5 | Increase participation in physical activity through long-term recreation planning and service delivery. |
| C6 | Enhance modern learning environments, community hubs and libraries to support connected communities. |
| C7 | Support local community organisations with equitable access to facilities, training and resources. |

Liveability

The most desirable place
to live, work and visit.

Residents and visitors enjoy Stonnington for our good urban design and amenity that maintains and enhances a quality lifestyle, open spaces, walking tracks, parks, tree-lined streets and activity precincts.

The City will continue to plan for a municipality that has a well-distributed network of vibrant activity centres providing a diversity of living, working, shopping and community opportunities at the heart of their respective neighbourhoods. Planning will generally direct population growth to locations with the highest accessibility to public transport and services. Council is also very aware of the need to preserve our significant tree-lined streets, residential amenity, public realm, heritage gardens and properties through well considered planning controls.

The City has the second lowest amount of public open space per capita of all Victorian councils. With increased development and population growth, if we don't actively pursue public open space opportunities, Stonnington will become quite a different place. Council's priority over the next four years will be to implement our 20-year Open Space Strategy to address the important community issue of creating quality open space. Council sees a future with creative and attractive open space options for all future generations.

In an effort to continuously improve the City's facilities and public places, major 'place-making' projects at Cato Street, Chapel Street and the Forrest Hill Precinct will continue over the next four years.

Council will also uphold our community's expectations for high quality street cleanliness and proactive maintenance programs that enhance the liveability of our City.

Advocacy for improved and accessible public transport, especially upgrades to the South Yarra train station as part of the Metro Rail Project and other city shaping improvements will be our key priority. Our roads are becoming more congested. Council will continue to prioritise quality local streetscapes to create more pedestrian, bicycle and public transport-friendly environments which promotes sustainable transport.

Our Strategic Challenges

Strategic and quality open space that keeps pace with population growth.

Balancing the protection of heritage buildings and neighbourhood character alongside pressure for more intense development.

The conflict between planning for an increased population and activity whilst maintaining a reasonable level of amenity.

The competing demands to use our public realm.

Insufficient linkages and accessibility to the transport network and increased car dependency.

The impact of higher density development on Council's ageing infrastructure and its capacity to accommodate future growth.

Participation levels are affected by the changing demand and competition for aquatic services and leisure activities.

The greater role that libraries now play in connecting communities digitally.

Strategies

We will:

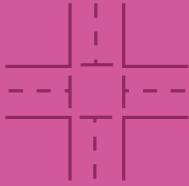

- | | |
|-----------|---|
| L1 | Strategically invest in open spaces, sporting fields and community facilities, and optimise use according to community needs. |
| L2 | Preserve Stonnington's heritage architecture and balance its existing character with complementary and sustainable development. |
| L3 | Balance the competing demands of maintaining residential amenity and population growth through appropriate planning. |
| L4 | Enhance the design outcomes of public spaces, places and buildings. |
| L5 | Advocate for improved and accessible public transport to enhance liveability and economic growth. |
| L6 | Maintain Council's infrastructure and assets essential for the sustainable operation of the City. |
-

of footpaths maintained

Environment

A cleaner, safer and better environment for current and future generations to enjoy.

Approximately 25 per cent of the municipality is covered by street tree canopy, which places Stonnington amongst Melbourne's highest canopy covers.

The City of Stonnington is committed to creating a sustainable and resilient City, with enhanced natural and urban environments that are enjoyed by the community.

The City of Stonnington is a highly urbanised environment. However, there are many significant natural features such as the Yarra River, and the parks and reserves that are corridors of natural environments and places of high amenity. Council will also seek opportunities to create ‘pocket parks’ by transforming Council-owned car parks, redundant commercial buildings and in some places, sections of roads.

Approximately 25 per cent of the municipality is covered by street tree canopy, which places Stonnington amongst Melbourne’s highest canopy covers. Urban forests not only provide a visual relief from the built form, they provide a sense of seasonality and connection to nature. In recognition of these pockets of natural environment, Council is concentrating its efforts to enhance biodiversity and public amenity in these areas.

Our community expects Council to focus efforts on improving its own environmental performance and practices; to lead by example. Council’s current sustainability practices include energy conservation measures, sustainable purchasing, enhancing natural areas, waste management and minimisation and integrated water management.

Council supports behaviour change through ongoing targeted environmental education and initiatives for the community including environmental activities and programs. These initiatives aim to raise awareness and equip residents with the knowledge and skills to pursue these activities at home, as well as providing an opportunity for increased social connectedness.

Our Strategic Challenges

Increasing development that creates an 'urban heat island effect' (i.e. reduced land permeability, increased flooding, reduced water quality and tree growing conditions), impacting on health, amenity and liveability.

Changing climatic conditions, including increased variability and extreme weather events. These conditions affect the health and viability of fauna, plant and tree species as well as the health and wellbeing of the community.

Increasing competition for public open space, including the need for tree planting to offset the ongoing loss of trees on private land.

Increasing proportion of residents living in apartment buildings and difficulties associated with implementing sustainable living initiatives (such as recycling).

Ongoing expectation to provide expanded Council services and facilities to meet increasing community needs while improving Council's environmental performance.

Strategies

We will:

E1	Reduce energy use and associated greenhouse gas emissions.
E2	Maximise efficiency of water use and improve water quality entering waterways.
E3	Enhance biodiversity values throughout the City to protect and increase flora and fauna.
E4	Protect, maintain and grow the City's street tree population to enhance the character, identity and liveability of the City of Stonnington.
E5	Deliver best practice waste management services to minimise waste generation and maximise resource recovery and recycling.
E6	Enhance sustainable purchasing of goods, materials and services with reduced environmental impacts.
E7	Lead community sustainability through public programs.
E8	Promote and facilitate the use of sustainable transport options across the City.

Supporting Strategic Plans

Economy

A City that will grow its premier status as a vibrant, innovative and creative business community.

The City of Stonnington is committed to creating the best possible environment for business investment and success. There are more than 17,130 registered businesses in the City of Stonnington represented by the retail, property and business, construction, health and community sectors. Stonnington's Gross Regional Product is estimated at \$5.892 billion.

Retail and hospitality have long been important economic drivers in Stonnington and are integral to the City's identity and character. Stonnington's 26 retail and activity centres range from clusters of local shops to Australia's most famous shopping strip, Chapel Street, and the nation's largest shopping centre, Chadstone. More than 70 per cent of visitors come to Stonnington to shop and visit our arts and cultural events. Stonnington's 'night economy' is also a major economic generator, turning over more than \$250 million and underpinning around a quarter of all jobs (4,000 jobs).

Professional services provided by a broad range of small to medium enterprises continue to evolve and strengthen because of our proximity to Melbourne. Creative and home-based industries present a crucial opportunity for future growth. Council plays a role in strengthening the capability of emerging and existing businesses. Council will build partnerships with business, industry and government to provide an environment where businesses can succeed and prosper.

Several stand-alone institutions are major employers and attract other related businesses. These include: Swinburne University of Technology, Holmesglen TAFE and Monash University (just outside the municipality), Cabrini Hospital and the Alfred Hospital (just outside the municipality).

Chapel Off Chapel is a cultural icon and hosts more than 450 performances, and approximately 55,000 audience members each year. The historic Malvern Town Hall, Functions On Chapel and Prahran Town Hall will continue to be our icon locations for arts and culture. Over the next four years, Council seeks to enliven public places and increase access, participation and enjoyment of arts and cultural programs.

Our Strategic Challenges

Shifts in consumer retail behaviour (e.g. online purchasing)

Impact of large shopping centres on strip shopping centres and precincts

Keeping pace with economic support to an evolving business community

Impacts on businesses and the wider community due to major infrastructure projects (e.g. Metro Tunnel, Cato Square, Prahran High School)

Strategies

We will:

- | | |
|-----------|--|
| E1 | Develop long-term plans to ensure sustainability of Stonnington's activity centres. |
| E2 | Provide effective engagement and support to local business through business skills development and marketing. |
| E3 | Leverage Stonnington's strategic location to attract new business and industry investment in key high value industries that are matched to the strengths of Stonnington. |
| E4 | Promote Stonnington's premier vibrant precincts, employment clusters and cultural assets as hubs for shopping, hospitality, entertainment and culture. |

Supporting Strategic Plans

Our strategies, plans, services and ongoing activities support the Council Plan, including:

- Art Acquisition Policy 2014
- Arts and Cultural Strategy (in preparation)
- Chapel reVision Structure Plan 2016
- Economic Development Strategy (in preparation)
- Footpath Trading and Awnings Policy 2013
- Liquor Licence Freeze Exemption Policy 2015

Strategic Resource Plan

Council will strive for excellence, ensuring that it has the capacity to deliver timely and efficient services to meet community needs and continually improve standards of service delivery.

The City's capacity to deliver the objectives of the Council Plan is based on our service culture, people, good governance, business systems and technology, asset and risk management and responsible financial planning.

Strategic Resource Plan – Non-Financial

Our Values

Accountability

We do things the right way for the right reasons. We are responsible and accountable for the work we do and the way we do it.

Achievement

We work hard to achieve great outcomes and we like how it feels when people stop to say, great job! So we strive for excellence and celebrate our success.

Change and New Ideas

Finding better ways to do things and sometimes doing things that haven't been done before keeps us challenged, inspired and relevant.

Communication

We communicate in a respectful, transparent and inclusive manner. Being open and honest in our communications allows us to make better decisions.

Cooperation

We know that working together means we get better results. We are a team and together we achieve great things for our community.

Learning

We encourage learning and create opportunities for people to grow and succeed for the benefit of our community.

Governance

Council will:

Be accountable and transparent in our business and decision-making process.

Undertake quality engagement with the community.

Develop partnerships that create community benefit through joint planning, service delivery and resource sharing.

Review policies, practices and procedures to ensure the adequacy and effectiveness of the City's administrative, operating and accounting controls.

Work with peak bodies to identify and address issues affecting Local Government.

Implement the Council Plan.

Fully comply with the *Local Government Act 1989* and all other applicable legislation and regulations.

Ensure that Councillors are fully aware of their obligations.

Undertake a revaluation of all properties within the municipality.

People

Council will:

Encourage a culture of innovation.

Encourage a culture that values community engagement and value added customer service.

Encourage creativity and ideas from all staff.

Ensure that in all its actions, human rights are protected.

Ensure policies and practices support our ageing workforce.

Strive to develop and maintain a workplace culture that attracts and retains highly skilled employees.

Ensure policies and practices support the wellbeing and reasonable work/life balance of our employees.

Continue to provide relevant training and development programs.

Ensure principles and practices of Equal Employment are adhered to.

Asset Management

Council will:

Continue to develop Council's Asset Management System.

Implement the Strategic Asset Management Plan to ensure effective and efficient maintenance and renewal of Council's infrastructure.

Business Systems and Technology

Council will:

Be an early adopter of new technologies that improve communication and engagement with the community.

Source integrated systems or improve systems integration to support seamless service delivery to the community.

Improve community access to services.

Implement the IT and Business Systems Strategy Plan.

Improve customer service tracking responses.

Design and manage network infrastructure enhancement.

Maintain and further refine IT disaster recovery and business continuity systems.

Deliver unified communications.

Risk

Council will:

Establish and maintain an Occupational Health and Safety system that delivers a safe and healthy work environment, which achieves compliance with relevant legislation, practices and procedures.

Encourage a culture that is proactive in identifying risk and implementing preventative measures.

Continue to improve Council's Risk Register which identifies and documents the mitigation of the organisation's strategic risks.

Strive to deliver best practice risk, Occupational Health and Safety and contract management.

Establish a robust contractor management system that delivers quality and efficient outcomes and that fulfils the requirements of legislation, practices and procedures.

Continue proactive risk identification and prevention.

Our Strategic Challenges

.....
Maintaining long-term financial stability and existing high service levels and standards the community expects in the rate cap environment.
.....

Speed of technological change.
.....

Growing demand for digital services.
.....

Managing Council's risk obligations.
.....

Changes to the Local Government Act.
.....

Ageing workforce.
.....

Rising employment costs.
.....

Responding to the demand for 24/7 customer service.
.....

Aligning long-term asset management to community levels of service demands, delivery requirements and whole of lifecycle costs.
.....

Strategic Resource Plan – Financial

The Strategic Resource Plan (SRP) is part of, and prepared in conjunction with, the Council Plan. It is a rolling four year plan that outlines the financial and non-financial resources that Council requires to achieve the strategic objectives described in the Council Plan.

The Annual Budget is framed within the SRP, taking into account the services and initiatives that contribute to achieving the strategic objectives specified in the Council Plan. The diagram below depicts the planning and accountability framework that applies to local government in Victoria.

The Council Plan is the City of Stonnington's four year vision that articulates its mission, values and plan to achieve the vision. The Council Plan was developed through a collaborative process involving the elected Councillors, the organisation and the community.

The timing of each component of the planning framework is critical to the successful achievement of the planned outcomes. The Council Plan, including the SRP, is required to be completed by 30 June following a general election and is reviewed each year in advance of the commencement of the Annual Budget process.

The *Victorian Local Government Act 1989* requires a SRP to be prepared describing both financial and non-financial resources (including human resources) for at least the next four financial years to achieve the strategic objectives in the Council Plan. In preparing the SRP Council must take into account all other plans and strategies in regard to services and initiatives that commit financial and non-financial resources for the period of the SRP.

Council has prepared a SRP for the four years 2017/18 to 2020/21 as part of its ongoing financial planning to assist in adopting a budget within a longer term framework. The SRP expresses the strategic objectives and strategies specified in the Council Plan in financial terms for the next four years.

The key objective in the development of the SRP is financial sustainability in the medium to long term, while still achieving Council's strategic objectives as specified in the Council Plan.

The key financial objectives that underpin the SRP are:

- > Maintain and improve existing service levels with reduced resources and an emphasis on innovation and efficiency.
- > Achieve and maintain underlying operating surpluses.
- > Maintain a significant capital works program averaging an annual spend of approximately \$69.26 million during the period of the SRP. Serviceable borrowings will supplement internal funding of capital works where necessary.
- > Maintain cash reserves (including term deposits with maturity greater than 90 days) to cover Council's restricted assets of statutory reserves and intended allocations.

In preparing the SRP, the Council has also been mindful of the need to comply with the following Principles of Sound Financial Management as contained in the Act:

- > Prudently manage financial risks relating to debt, assets and liabilities.
- > Provide reasonable stability in the level of rate burden.
- > Consider the financial effects of Council decisions on future generations.
- > Provide full, accurate and timely disclosure of financial information.

The SRP is updated annually through a rigorous process of consultation with Council service providers and is focused on the achievement of the key financial objectives.

Planning and Accountability Framework

Source: Department of Environment, Land, Water and Planning

The City of Stonnington is projecting a positive operating result and a strong Balance Sheet for each year of the Council Plan. The SRP is financially sustainable, enables the achievement of the Council Plan objectives and funds the strategies included in the Council Plan 2017–2021.

The strong financial position established over a number of years is a reflection of sound financial management, rigorous cost control and the commitment to financial sustainability. Costs have been carefully scrutinised to realise efficiencies and generate savings where possible.

Historically, Council has generated operating results and the SRP projects healthy surpluses into the future. Such operating surpluses are an important source of funding for capital works programs.

While the City's overall financial position is strong, a number of external non-controllable costs continue to impact on Council's finances. Costs such as the allowance for possible future unfunded defined benefits superannuation calls, Fire Services Property Levy, EPA landfill levy, merchant fees and increasing water and electricity costs represent cost pressures that have been absorbed in the budget.

Despite these external influences, Council has maintained a significant capital works budget for 2017/18 of \$85.7 million (including \$31.48 million deferrals and carry forward works in progress from 2016/17), while restricting the increase to average general rates to 2.0 per cent as determined by the Minister for Local Government under the Fair Go Rates System.

Maintenance of the strong financial position during the 2017/18 – 2020/21 planning period promotes a sustainable financial future for the City and the capacity to deliver the objectives and strategies of the Council Plan and Strategic Resource Plan. The financial strategy is built upon maintaining Council's existing assets and funding new assets through internal sources, such as operating surpluses and depreciation allowances, and borrowings when required to maintain and upgrade all physical assets such as roads, drains, footpaths, parks, buildings and information technology assets.

The average general rate increase is capped at 2.0 per cent in 2017/18 which is lower than the 2.5 per cent capped in the previous SRP. The annual average unit increase in the garbage and garden waste charge is 0.8 per cent (compared to 2.5 per cent increase proposed in the previous SRP) to cover waste management costs, including the EPA Environmental landfill levy. Non-statutory user fees have been reviewed against service costs and, where applicable, market rates to increase income levels by approximately 1.6 per cent (compared to 3.5 per cent proposed in the previous SRP). Statutory fees and fines income is projected to increase by approximately 4.6 per cent in 2017/18.

Borrowings including finance leases are projected to increase from \$9.0 million at the end of 2016/17 to \$41.33 million in 2018/19, before reducing to \$40.24 million by end of year 2020/21 due to new borrowings of \$47.0 million that will contribute funding for \$83.38 million strategic capital expenditure over 2017/18 to 2020/21. Over the four year period, Council will be undertaking an extensive \$277.04 million capital works program including new \$83.38 million strategic capital investment during 2017/18 to 2020/21. Excluding this strategic investment, which is partly funded by loan borrowings, the remaining capital works program will be fully funded through operating surpluses, cash reserves and some grants.

After a decrease in 2017/18 to 2018/19, as a result of funding the significantly increased capital works, Council is expected to maintain a steady trend of healthy liquidity ratios, thus confirming a continued ability to meet short-term liabilities and scheduled debt repayment during the SRP period.

The SRP is framed around cash reserves remaining sufficient to cover Council's restricted assets of statutory reserves (primarily the Open Space Reserve), trust funds and deposits.

An annual contribution of \$1.0 million will be made to the Future Fund Reserve over the period of the Strategic Resource Plan. An annual expenditure allowance of \$2.0 million in 2017/18 to 2020/21 is included for possible future unfunded Defined Benefits Superannuation Scheme shortfall calls. This will give Council greater financial capacity to respond to strategic property acquisition and development opportunities and shelter it from extraordinary Defined Benefits Superannuation Scheme calls by utilising its own cash reserves.

Capital expenditure over the four year period 2017/18 to 2020/21 will total \$277.04 million at an average of \$69.26 million per annum. Excluding the strategic capital expenditure developments of \$83.38 million, the average capital works program is \$69.24 million per annum. The capital expenditure program is in accordance with Council's priorities refined during this budget process. The four year program includes major expenditure on Strategic open space acquisition, Cato Street Redevelopment, Stonnington Indoor Sports Stadium, Forrest Hill Masterplan, Yarra River Biodiversity project, Prahran Town Hall Masterplan development, Chapel Street Streetscape Masterplan implementation, Harold Holt Swim Centre Masterplan implementation, Prahran Aquatic Centre feasibility and redevelopment, Dunlop Pavilion redevelopment, Bicycle paths and strategy works, Prahran Market works, Gardiner Park redevelopment, local road asphalt resurfacing program, Library materials and eServices, light and specialised vehicle replacement program and expenditure on the City's critical infrastructure and properties.

The SRP shows the City of Stonnington will retain a strong Balance Sheet, ensuring a sustainable future for the City. The sound financial position enables Council to maintain current levels of service to the community including aged care, waste recycling, environment, parks management and street sweeping and also provides funding for new community and organisational initiatives articulated in the Council Plan.

Annual Plan – Year 1, 2017/2018

Community				
Ref	Budget Activity	Measure	Classification	Unit
C1	Enhance community health and wellbeing outcomes through quality service delivery and strategic partnerships.			
C1.1	Provide developmental assessments at key ages and stages, and information and support through the maternal and child health service.	Measure participation rate of infants that attend key ages and stages assessments against state targets.	Service	Children & Family Services e hw
C1.2	Provide immunisation services	Provide 67 immunisation sessions for under five year olds, 27 sessions for City of Stonnington high schools, two staff flu sessions and a shingles program for over 70s.	Service	Children & Family Services e hw
C1.3	Work with Early Years Services providers to support the delivery of safe, high quality and affordable services to Stonnington families.	Support a number of Early Years Services to obtain 'Meeting Standards' or 'Exceeding National Quality Standards' accreditation with the Australian Children's Education and Care Quality Authority.	Service	Children & Family Services e i hw
C1.4	Work with allied health services and Council's maternal child health service to provide improved access to family support services for new parents.	Facilitate co-location of allied health services within the five MCH centres.	Initiative	Children & Family Services e i hw
C1.5	Assess and provide relevant support services for frail aged, older residents, people with a disability and their carers including in-home and community-based services.	Meet Department of Health and Department of Health and Human Services funding service targets.	Service	Aged, Diversity, Health & Animal Management e i hw cs
C1.6	Prepare and implement Municipal Public Health and Wellbeing Plan 2017–2021.	Implement Annual Action Plan.	Initiative	Advocacy, Performance & Improvement e i s hw cc cs
C1.7	Strengthen partnerships with local agencies and community groups to monitor and respond to emerging social issues, including family violence.	Ensure appropriate levels of support and involvement are maintained.	Service	All e i hw cc cs
C1.8	Prepare and coordinate research, policy positions and advocacy briefing papers related to regional forums, government, industry and peak bodies.	Initiate and provide timely submissions and reports on emerging issues.	Initiative	All e
C2	Strengthen Council's commitment to support our diverse and inclusive communities.			
C2.1	Provide and/or facilitate a range of services, programs and events for families, children and young people.	Develop and deliver Council and FReeZA programs including expression fashion gala, skate event and transition programs from primary to secondary school.	Initiative	Children & Family Services e i hw cs
C2.2	Assess the changing demographics and identify where services and facilities should be located to deliver the needs of children, young people and their families in our community.	Develop 0-25 Strategy.	Service	Children & Family Services e i
C2.3	Deliver programs and services to children and young people (aged 5–16 years) at The Child and Youth Community Hub (The Hub) to support the social and emotional development of young public housing residents.	Deliver after school and holiday programs at The Hub throughout the year.	Service	Children & Family Services e i hw cc cs

Community

Ref	Budget Activity	Measure	Classification	Unit
C2.4	Support local culturally and linguistically diverse older persons groups through the Cultural Diversity Grants Program.	Ensure all groups have signed annual service agreements in line with their funding.	Initiative	Aged, Diversity, Health & Animal Management i hw cc
C2.5	Develop new Access and Inclusion Plan for 2017/20 and implement the Victorian Government Metro Access Program in partnership with community agencies and organisations.	Council adopts the Access and Inclusion Plan 2017/2020.	Initiative	Aged, Diversity, Health & Animal Management e i hw cc
C2.6	Implement the Cultural Diversity Strategy 2015/19.	Implement year three actions.	Service	Aged, Diversity, Health & Animal Management e i hw cc
C2.7	Continue Stonnington's representation and participation with Indigenous organisations and networks.	Continue dialogue with Citizens for Reconciliation, Reconciliation Victoria, Reconciliation Australia and Local Indigenous Network.	Service	Economic & Cultural Development e i
C3	Implement community safety initiatives and fair compliance processes to address community safety issues.			
C3.1	Maintain the Municipal Emergency Management Plan, in partnership with key agencies to prepare for and respond to municipal emergencies.	Amend plan in accordance with legislative changes and hold a minimum of three MEMPC meetings per calendar year.	Service	Physical Operations cs
C3.2	Monitor and minimise risks to public health through the enforcement of legislation and guidelines.	Inspect all food premises at least once annually and all health premises at least every two years.	Service	Aged, Diversity, Health & Animal Management hw cs
C3.3	Monitor and minimise risks to the community through the promotion of responsible pet ownership and the enforcement of legislation and guidelines.	Continue community education programs to reduce animal infringements.	Service	Aged, Diversity, Health & Animal Management hw cs
C3.4	Implement the Domestic Animal Management Plan 2016/21.	Implement annual actions.	Service	Aged, Diversity, Health & Animal Management cs
C3.5	Undertake inspections of buildings rated as high fire danger as required.	Conduct responsive inspections as required. Investigate and respond to complaints. Conduct proactive inspections in line with risk criteria.	Legislation	Building & Local Law cs
C3.6	Administer and enforce regulations for swimming pools and spas, and promote safety and awareness of owner responsibilities.	Conduct responsive inspections as required. Investigate and respond to complaints. Conduct proactive inspections in line with risk criteria.	Legislation	Building & Local Law hw cs
C3.7	Administer and enforce the <i>Building Act 1993</i> and Regulations 2006.	Conduct responsive inspections as required. Investigate and respond to complaints. Conduct proactive inspections in line with risk criteria.	Legislation	Building & Local Law cs
C3.8	Review Council's Footpath Trading and Awnings Policy 2013.	Policy Adopted. Undertake annual inspection of Footpath Trading Permit compliance and investigate and respond to complaints.	Service	Building & Local Law cs

Community				
Ref	Budget Activity	Measure	Classification	Unit
C3.9	Administer and enforce Council’s Local Laws.	Conduct Local Law investigations as required in response to complaints. Conduct proactive Building Act inspections in line with Municipal Building Surveyor Office risk criteria.	Legislation	Building & Local Law 
C3.10	Conduct road safety behavioural change programs to encourage responsible driving.	Conduct Fit to Drive, Looking After our Mates and Responsible Serving of Alcohol courses conducted according to demand.	Initiative	Transport & Parking 
C3.11	Undertake appropriate enforcement to encourage compliance with time limits displayed.	Percentage of motorists complying with time limits on arterial roads as evidenced in quarterly audits undertaken as part of the Parking Services Contract.	Initiative	Transport & Parking 
C3.12	Respond to perceptions of community safety in partnership with Victoria Police and other agencies.	Manage Community Safety Committee, initiatives, projects and partnerships.	Service	Advocacy, Performance & Improvement 
C3.13	Provide strategic assessment of Closed-Circuit Television (CCTV) systems.	Undertake annual evaluation and audit CCTV network and seek new funding opportunities, as appropriate.	Service	Advocacy, Performance & Improvement 
C4	Enhance community engagement to ensure Council makes long-term decisions in the best interests of the community.			
C4.1	Enhance customer service through the use of technology to improve business process (planning and delivery of Eservices, including Epayments, Eforms and Ebookings and interactive Geographic Information System mapping).	Increase use of online customer service tools. Implement creative ways to use GIS. Develop and deliver Eservices.	Initiative	Business Systems & Technology, Communications, Customer Service 
C4.2	Provide a suite of digital communications (eg. Website, new media and social media) to enable better access to Council information and services.	Deliver a wide range of digital communications campaigns.	Initiative	Communications 
C4.3	Inform residents through <i>InStonnington</i> , advertising, publications, website, social media, via the media and other resources as needed.	Deliver regular editions of <i>InStonnington</i> , monthly advertising, weekly website updates, media releases and targeted publications.	Service	Communications 
C4.4	Support the Mayor, Councillors, CEO and broader Council and EMT to provide clear and consistent messaging across publications, media, issues management and advocacy.	Deliver a wide range of communications activities such as speeches and targeted communications.	Service	Communications
C4.5	Provide enhanced community engagement opportunities.	Support organisation to undertake community surveys, including administration and management of online engagement platform.	Service	Advocacy, Performance & Improvement 
C4.6	Deliver a responsive customer service model to respond to enquiries received via phone, internet, mail, email and counter enquiries.	Total number of calls and Customer Requests received.	Service	Customer Service 

Community

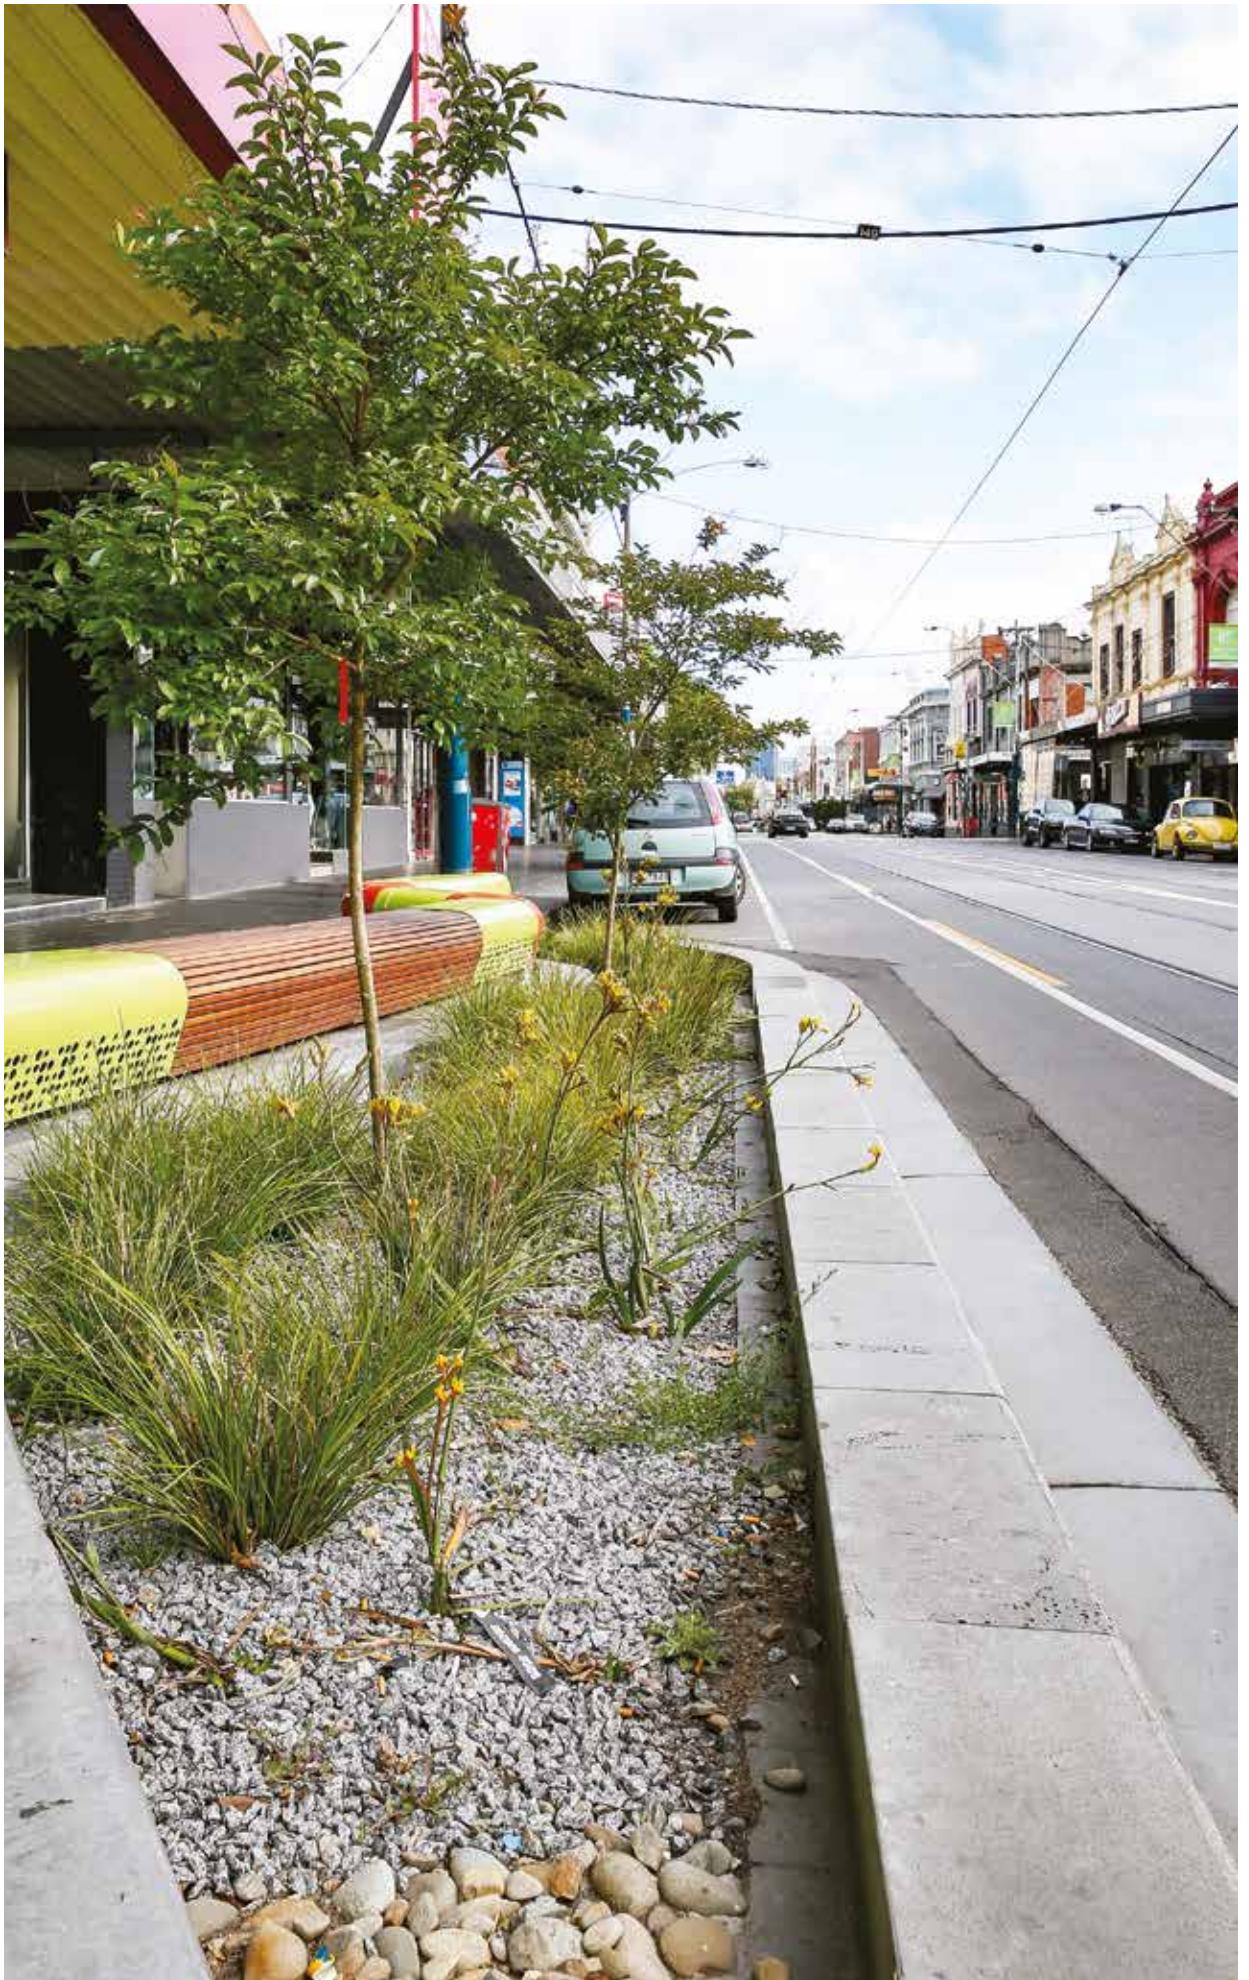

Ref	Budget Activity	Measure	Classification	Unit
C5	Increase participation in physical activity through long-term recreation planning and service delivery.			
C5.1	Implement the Active Living Program.	Identify key target groups and provide accessible and affordable opportunities and programs to increase participation in physical activity and recreation.	Initiative	Community Facilities e i hw
